## Subject index\*

### A

- Abdominal computerized tomography, abnormal, with amiodarone therapy and clinical significance (Shenasa et al.), 929
- Accelerated junctional rhythms during oral verapamil therapy (Schwartz et al.), 440
- Accessory pathway(s), retrograde, unidirectional, antegrade conduction and AV node function in patients with (Henglein et al.), 411
  - with long conduction times, differentiation between atrial tachycardia and reciprocating atrioventricular tachycardia using an: Observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- Acebutolol, atenolol, and d-propranolol, effects of on isolated working rat hearts subject to myocardial ischemia and reperfusion: role of beta-adrenoreceptor antagonism in the prevention of reperfusion ventricular arrhythmias (Rochette et al.), 1132
- Acetylcholine-calcium interactions in the canine atrium and sinus node (Loeb and deTarnowsky), 1161
- Acetyl-strophanthidin, effects of on left ventricular function and ventricular arrhythmias (Podrid et al.), 882
- Acute myocardial infarction, prevention of myocardial reinfarction and of sudden death in survivors of: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189

### Acute myocardial infarction—continued

- torsade de pointes complicating (Griffin and Most), 169 (Brief comm.)
- Adenoma, pituitary, prolactin-secreting, orthostatic hypotension due to (Ducloux et al.), 187 (Letter)
- Adenosine 3':5'-cyclic phosphate (cyclic AMP) and phosphorylation in regulation of  $Ca^{++}$  influx into myocardial cells and blockade by calcium antagonistic drugs (Sperelakis), 347
- Adenylate cyclase-adrenergic receptor system, defect in during development of catecholamine-induced cardiomyopathy (Corder et al.), 537
- Adjunctive operative coronary artery balloon-catheter dilatation: review of Lenox Hill experience (Wallsh et al.), 856
- Adrenergic receptor-adenylate cyclase system, defect in during development of catecholamine-induced cardiomyopathy (Corder et al.), 537
- Adult patients, noninvasive evaluation of severity of aortic stenosis in (Nakamura et al.), 959
- Alcohol ingestion, variant angina induced by (Takizawa et al.), 25
- Aldosterone levels, plasma renin substrate, and renin activity in a sample of oral contraceptive users from a community survey (Goldhaber et al.), 119
- Alpha-hydroxybutyrate dehydrogenase levels, serum, assessment of myocardial damage in patients with acute myocardial infarction by serial measurement of (van der Laarse et al.), 248
- Alternans, electrical, nonlinear dynamics, and pericardial tamponade (Goldberger et al.), 1297
- mechanical, Doppler echocardiographic features of (Schuster and Nanda), 580 (Brief comm.)

\*January, pp. 1-200; February, pp. 201-410; March, pp. 411-618; April, pp. 619-874; May, Part 1, pp. 875-1052; May, Part 2, pp. 1053-1102; June, pp. 1103-1336.

- American Indians, urban, cardiovascular risk factors among: blood pressure, serum lipids, smoking, diabetes, health knowledge, and behavior (Gillum, Gillum, and Smith), 765
- Amiodarone and thyroid function (Puletti et al.), 399 (Letter)  
Reply (Rotmensch, Belhassen, and Ferguson), 399
- efficacy of during long-term treatment of malignant ventricular arrhythmias in patients with chronic chagasic myocarditis (Chiale et al.), 656
- of potentially dangerous ventricular arrhythmias in patients with chronic stable ischemic heart disease (Kaski et al.), 648
- induced ventricular tachyarrhythmias (Santinelli, Chiariello, and Condorelli), 610 (Letter)  
Reply (Sclarovsky et al.), 611
- intravenous, effects of in patients with inducible repetitive ventricular responses and ventricular tachycardia (Harman et al.), 1109
- electrophysiologic effects and mechanisms of termination of supraventricular tachycardia by (Gomes et al.), 214
- one year follow-up of empiric therapy with: prognosis after sudden cardiac death without associated myocardial infarction (Peter et al.), 209
- :prolonged elimination following cessation of chronic therapy (Wilkinson et al.), 787 (Brief comm.)
- replacement of by sotalol for repetitive ventricular premature beats (Burckhardt, White, and Hoffmann), 167 (Brief comm.)
- therapy and clinical significance, abnormal abdominal computerized tomography with (Shenasa et al.), 929
- Amplitude changes, R wave, exercise-induced, in coronary patients and normal subjects, influence of heart rate on (de Caprio et al.), 61
- responses, R wave, to rapid atrial pacing: a marker for myocardial ischemia (David et al.), 53
- Anastomosis, artery, coronary-to-bronchial, and multiple pulmonary cysts with angina pectoris (Saito et al.), 1037 (Brief comm.)
- Aneurysm, aortic, dissecting, rupture of into the right atrium: clinical and echocardiographic recognition (Nicod et al.), 1276 (Brief comm.)
- dissection, aortic, ascending, unusual echocardiographic image of (Steriotis, Athanasopoulos, and Aravanis), 1023 (Brief comm.)
- unruptured sinus of Valsalva, echocardiographic diagnosis of (Lewis and Agathangelou), 1025 (Brief comm.)
- Angina pectoris and acute myocardial infarction, fibrinopeptide A and beta thromboglobulin in patients with (van Hulstijn et al.), 39
- coronary flow limitation precedes: sequential changes in regional coronary flow during pacing-induced angina pectoris (Wilson et al.), 269
- to-bronchial artery anastomosis and multiple pulmonary cysts with (Saito et al.), 1037 (Brief comm.)
- exertional, chronic stable, long-term study of high-dose diltiazem in (Hossack et al.), 1215
- numerical approach to classification of (Wartak, Fenna, and Callaghan), 402
- pacing-induced, sequential changes in regional coronary flow during: coronary flow limitation precedes angina (Wilson et al.), 269
- spontaneous versus: thromboxane release in coronary artery disease (Mehta et al.), 286
- Prinzmetal's, transient changes in left ventricular mechanics during attacks of: an M-mode echocardiographic study (Distante et al.), 465
- unstable, alterations in left ventricular function during therapy of: relationship to clinical outcome (Narahara et al.), 261
- variability of results of repeat treadmill exercise testing in patients with (Starling et al.), 298
- variant, ergonovine-induced episodes of, ventricular arrhythmias during (Szlachcic et al.), 20
- induced by alcohol ingestion (Takizawa et al.), 25
- Angiograms, cardiac, influence of bias on the subjective interpretation of (Diamond et al.), 68
- Angiographic and clinical implications of anterolateral ST segment depression in acute inferior myocardial infarction (Roubin et al.), 1177
- Angiographic—continued
- assessment, sequential radionuclide, of left and right ventricular performance and quantitative thallium-201 scintigraphy following acute myocardial infarction (Hirso-witz et al.), 934
- Angiography, coronary spasm provoked by (Dodek and Hooper), 781 (Brief comm.)
- radionuclide, equilibrium, attenuation correction of for noninvasive quantitation of cardiac output and ventricular volumes (Petru et al.), 1221
- serum lipids as indicators of occult coronary artery disease assessed by (Ramsdale et al.), 811
- Angioplasty, balloon, acute coronary occlusion during due to intracoronary thrombus and coronary spasm: a reversible complication (Ischinger, Zack, and Aker), 1271 (Brief comm.)
- coronary, higher balloon dilatation pressure in (Meier et al.), 619
- percutaneous transluminal, and coronary artery bypass surgery including surgery for failed angioplasty, comparison of (Jones, Murphy, and Craver), 830
- in acute myocardial infarction (Pepine et al.), 820
- significance of chest pain during (Aueron, Gruentzig, and Meier), 578 (Brief comm.)
- : 6 years' experience (Gruentzig), 818
- failed, comparison of coronary artery bypass surgery and percutaneous transluminal coronary angioplasty including surgery for (Jones, Murphy, and Craver), 830
- Annular calcification, mitral: clinical, pathophysiology, and echocardiographic review (Nestico et al.), 989
- Antegrade conduction and AV node function in patients with unidirectional retrograde accessory pathways (Henglein et al.), 411
- Anterolateral ST segment depression in acute inferior myocardial infarction: angiographic and clinical implications (Roubin et al.), 1177
- Antiarrhythmic agent, new, flecainide acetate, proarrhythmic effects of the (Nathan et al.), 222
- propafenone, a new, electrophysiologic and hemodynamic effects of on the anesthetized, closed-chest dog: comparative study with lidocaine (Karagueuzian et al.), 418
- drug(s), mechanisms and actions of: ventricular arrhythmias (Wellens, Brugada, and Farre), 1053
- treatment, suppression of high-grade ventricular ectopic activity by as a marker for survival in patients with chronic coronary artery disease (Hoffmann et al.), 1103
- properties, class III, intravenous sotalol, a beta-blocking drug with, clinical electrophysiology of (Touboul et al.), 888
- slowed ectopic rate, influence of on pacing termination of ventricular tachycardia (Keren, Miura, and Somberg), 638
- Anticoagulants during pregnancy for mechanical prosthetic valves (Danel and Cooper), 607 (Letter)  
Reply (Tamari), 607
- Antidysrhythmic actions of meobentine sulfate (Zimmerman et al.), 1117
- Antigenicity of lidocaine analogs, molecular basis for: tocainide and mexiletine (Duff, Roden, Marney, et al.), 585 (Brief comm.)
- Anulus, tricuspid, calcification of diagnosed by two-dimensional echocardiography (Mattleman et al.), 986
- Aorta, ascending, and main pulmonary artery of normal subjects by Doppler echocardiography, evaluation of blood flow velocity in the (Gardin et al.), 310
- Aortic aneurysm, dissecting, rupture of into the right atrium: clinical and echocardiographic recognition (Nicod et al.), 1276 (Brief comm.)
- dissection, ascending, unusual echocardiographic image of (Steriotis, Athanasopoulos, and Aravanis), 1023 (Brief comm.)
- dissection, unusual echographic findings in: diastolic prolapse of intimal flap into left ventricle (Come et al.), 790 (Brief comm.)
- flow velocity in older subjects using continuous-wave Doppler echocardiography (Vijayaraghavan et al.), 1275 (Brief comm.)

**Aortic—continued**

- prosthesis, malfunctioning, early prosthetic mitral closure due to during intra-aortic balloon counterpulsation (Gheorghiade et al.), 383 (Brief comm.)
- porcine, with flail leaflets due to degeneration and calcification, echocardiography of (Bansal, Morrison, and Jacobson), 591 (Brief comm.)
- stenosis, in adult patients, noninvasive evaluation of severity of (Nakamura et al.), 959
- valve in congestive cardiomyopathy, echographic early systolic partial closure (notching) of the (Gardin, Tommaso, and Talano), 135
- size, prosthetic, two-dimensional echocardiographic preoperative prediction of (Cohen et al.), 108
- vaporization of, transcatheter in vivo: effects of laser irradiation on cardiac valves (Lee et al.), 394 (Brief comm.)
- Apnea, sleep, -hypersomnia syndrome: its recognition in clinical cardiology (Burack), 543
- Appearance time, myocardial contrast, use of to measure coronary flow reserve: application of digital techniques to selective coronary arteriography (Vogel et al.), 153
- Arrhythmias and QT interval in athletes (Palatini and Sperti), 608 (Letter)
  - Reply (Pantano), 608
- ventricular, and ischemia-induced conduction delay, relationship between in closed-chest animals within 24 hours of myocardial infarction (Fujimoto et al.), 201
- and left ventricular function, effects of acetyl-strophanthidin on (Podrid et al.), 882
- during ergonovine-induced episodes of variant angina (Szlachet et al.), 20
- long-term mexiletine for (Stein et al.), 1091
- malignant, in patients with chronic chagasic myocarditis, efficacy of amiodarone during long-term treatment of (Chiale et al.), 656
- : mechanisms and actions of antiarrhythmic drugs (Wellens, Brugada, and Farre), 1053
- potentially dangerous, efficacy of amiodarone during long-term treatment of in patients with chronic stable ischemic heart disease (Kaski et al.), 648
- refractory, oral mexiletine in treatment of: role of electrophysiologic techniques (Schoenfeld et al.), 1071
- reperfusion, role of beta-adrenoreceptor antagonism in the prevention of: effects of acebutolol, atenolol, and d-propranolol on isolated working rat hearts subject to myocardial ischemia and reperfusion (Rochette et al.), 1132
- with mexiletine, practical considerations in treatment of (Akhtar), 1086
- Arteriography, coronary, selective, application of digital techniques to: use of myocardial contrast appearance time to measure coronary flow reserve (Vogel et al.), 153
- progression of coronary artery disease in patients with chest pain and normal or intraluminal disease on (Haft and Bachik), 35
- Arteriosclerosis obliterans, thromboxane B<sub>2</sub>, 6-keto-PGF<sub>1α</sub>, PGE<sub>2</sub>, PGF<sub>2α</sub>, and PGA, plasma levels in: relationship to clinical manifestations, risk factors, and arterial pathoanatomy (Jouve et al.), 45
- Arteriovenous fistulas, coronary, and Kawasaki's disease, evaluation in: systematic visualization of coronary arteries by two-dimensional echocardiography in children and infants (Satomi et al.), 497
- Artery(ies) anastomosis, coronary-to-bronchial, and multiple pulmonary cysts with angina pectoris (Saito et al.), 1037 (Brief comm.)
  - balloon-catheter dilatation, coronary, intraoperative (Fogarty and Kinney), 845
  - branch stenosis, left pulmonary, peripheral, scimitar syndrome with (Platia and Brinker), 594 (Brief comm.)
  - bypass surgery, coronary, role of after intracoronary streptokinase infusion for myocardial infarction (Walker et al.), 826
  - coronary, experience with operative transluminal balloon-catheter dilatation of the (Mills and Doyle), 838
  - normal, myocardial infarction with complicated by ventricular septal rupture (St. Louis et al.), 1259 (Brief comm.)

**Artery(ies)—continued**

- right and left, common origin of from the region of left sinus of Valsalva: association with unexpected intrauterine fetal death (Muus and McManus), 1285 (Brief comm.)
- systematic visualization of by two-dimensional echocardiography in children and infants: evaluation in Kawasaki's disease and coronary arteriovenous fistulas (Satomi et al.), 497
- disease, coronary, effect of prolonged intense endurance training on systolic time intervals in patients with (Martin et al.), 75
- endocardial activation in patients with: effects of regional contraction abnormalities (Wiener, Mindich, and Pitchon), 1146
- intraoperative balloon-catheter dilatation in treatment of (Jones and King), 836
- ocult, serum lipids as indicators of assessed by angiography (Ramsdale et al.), 811
- progression of in patients with chest pain and normal or intraluminal disease on arteriography (Haft and Bachik), 35
- right ventricular function in as assessed by two-dimensional echocardiography (Panidis et al.), 1187
- great, transposition of the, transumbilical balloon atrial septostomy for in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)
- occlusion, coronary, brief, decreased systolic wall thickening in myocardium adjacent to ischemic zones in conscious swine during (Guth et al.), 458
- pulmonary, main, and ascending aorta of normal subjects by Doppler echocardiography, evaluation of blood flow velocity in the (Gardin et al.), 310
- right pulmonary, to left atrial communication: recognition and surgical correction (Sheikhzadeh et al.), 396 (Brief comm.)
- septal coronary, systolic compression of with septal ischemia by thallium-201 scintigraphy (Ugarte et al.), 1039 (Brief comm.)
- Ascending aorta and main pulmonary artery of normal subjects by Doppler echocardiography, evaluation of blood flow velocity in the (Gardin et al.), 310
- aortic aneurysm dissection, unusual echocardiographic image of (Steriotis, Athanasopoulos, and Aravanis), 1023 (Brief comm.)
- Atenolol, acebutolol, and d-propranolol, effects of on isolated working rat hearts subject to myocardial ischemia and reperfusion: role of beta-adrenoreceptor antagonism in the prevention of reperfusion ventricular arrhythmias (Rochette et al.), 1132
- Atherosclerotic disease, human, dissolution of by fiberoptic laser-heated metal cautery cap (Lee et al.), 777 (Brief comm.)
- Athletes, arrhythmias and QT interval in (Palatini and Sperti), 608 (Letter)
  - Reply (Pantano), 608
- Atrial bigeminy, concealed: Mechanisms of disappearance and reappearance of manifest extrasystoles (Kinoshita et al.), 919
- fibrillation in pericardial disease (Spodick), 809 (Letter)
  - Reply (Goldberger and John Mancini), 810
- flutter, nonsustained, induction of by programmed atrial stimulation in children: incidence, mechanisms, and clinical implications (Casta et al.), 444
- with 1-1 atrioventricular conduction: electrophysiologic and histologic correlations (Blanc et al.), 1044 (Brief comm.)
- left, to right pulmonary artery communication: recognition and surgical correction (Sheikhzadeh et al.), 396 (Brief comm.)
- masses, right, clinical and echocardiographic features of (Panidis et al.), 745
- pacemakers, implanted, stability of AV conduction in sick sinus node syndrome patients with (Hayes and Furman), 644
- pacing catheter, new temporary, clinical evaluation of a: results in 100 patients (Littleford et al.), 237
- rapid, correlation between changes in R wave amplitude and left ventricular volume induced by (Daniels et al.), 711

**Atrial pacing, rapid—continued**

- R wave amplitude responses to: a marker for myocardial ischemia (David et al.), 53
- septostomy, balloon, transumbilical, for transposition of the great arteries in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)
- stimulation, programmed, in children, induction of nonsustained atrial flutter by: incidence, mechanisms, and clinical implications (Casta et al.), 444
- tachycardia and reciprocating atrioventricular tachycardia, differentiation between using an accessory pathway with long conduction times: observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- volume change, left, relationship of the interatrial septal echocardiogram to in the normal and diseased heart (Chung-Sheng, Hon-Yuan, and Yih), 519
- wall, right, subcostal M-mode echocardiography for differentiation of supraventricular tachyarrhythmias with aberration from ventricular tachycardia (Drinković), 326
- Atrioventricular block, supra-Hisian, intermittent, verapamil effects in AV node reentry tachycardia with (Hamer et al.), 431
- conduction in sick sinus node syndrome patients with implanted atrial pacemakers, stability of (Hayes and Furman), 644
- 1-1, atrial flutter with: electrophysiologic and histologic correlations (Blanc et al.), 1044 (Brief comm.)
- nodal conduction disturbances, right ventricular involvement with acute inferior wall myocardial infarction identifies high risk of developing (Braat et al.), 1183
- reentrant tachycardia, initiation of in patients with discontinuous anterograde atrioventricular nodal conduction curves with and without documented supraventricular tachycardia: observations on role of a discontinuous retrograde conduction curve (Brugada et al.), 685
- node function and antegrade conduction in patients with unidirectional retrograde accessory pathways (Henglein et al.), 411
- or sinus node of dogs, no electrical instability after intracoronary streptokinase administered into (Epstein, Urthaler, and James), 902
- reentry tachycardia, verapamil effects in with intermittent supra-Hisian AV block (Hamer et al.), 431
- tachycardia, reciprocating, and atrial tachycardia, differentiation between using an accessory pathway with long conduction times: observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- valves, overriding and straddling, associated with complex congenital heart disease, two-dimensional echocardiographic evaluation of (Barron et al.), 1006
- versus ventricular demand pacemakers, evaluation of left ventricular performance by radionuclide ventriculography in patients with (Nitsch et al.), 906
- Atrium and sinus node, canine, acetylcholine-calcium interactions in the (Loeb and deTarnowsky), 1161
- right, rupture of dissecting aortic aneurysm into the: clinical and echocardiographic recognition (Nicod et al.), 1276 (Brief comm.)
- Attenuation correction of equilibrium radionuclide angiography for noninvasive quantitation of cardiac output and ventricular volumes (Petru et al.), 1221
- Avalanche radiation probe, regional myocardial perfusion measured by the during cardiopulmonary bypass: pharmacologic and physiologic alterations (Karlsberg et al.), 367

**B**

- Balloon angioplasty, acute coronary occlusion during due to intracoronary thrombus and coronary spasm: a reversible complication (Ischinger, Zack, and Aker), 1271 (Brief comm.)
- atrial septostomy, transumbilical, for transposition of the great arteries in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)

**Balloon—continued**

- catheter dilatation and coronary artery bypass surgery, implications in: role of platelet antagonists in coronary artery disease (Mehta), 859
- coronary artery, adjunctive operative: review of Lenox Hill experience (Wallah et al.), 856
- intraoperative (Fogarty and Kinney), 845
- intraoperative, in treatment of coronary artery disease (Jones and King), 836
- University of Florida experience (Faro et al.), 841
- retrograde, intraoperative, to augment myocardial revascularization (Ross et al.), 851
- transluminal, operative, of the coronary arteries, experience with (Mills and Doyle), 838
- catheterization, transseptal, of the left ventricle in adult valvular heart disease (Lam, Juska, and Pietras), 147
- counterpulsation, intra-aortic, early prosthetic mitral closure due to malfunctioning aortic prosthesis during (Gheorghade et al.), 388 (Brief comm.)
- dilatation pressure in coronary angioplasty, higher (Meier et al.), 619
- BAYg6575 (Nafazatrom), beneficial effects of on experimental coronary thrombosis (Shea et al.), 629
- Beta-adrenoceptor blockade, role of prophylactic: prevention of myocardial reinfarction and of sudden death in survivors of acute myocardial infarction (Singh and Venkatesh), 189
- adrenoceptor antagonism, role of in the prevention of reperfusion ventricular arrhythmias: effects of acebutolol, atenolol, and d-propranolol on isolated working rat hearts subject to myocardial ischemia and reperfusion (Rochette et al.), 1132
- blocking drug with class III antiarrhythmic properties, intravenous sotalol, clinical electrophysiology of (Touboul et al.), 888
- thromboglobulin and fibrinopeptide A in patients with angina pectoris and acute myocardial infarction (van Hulsteijn et al.), 39
- Bias, influence of on the subjective interpretation of cardiac angiograms (Diamond et al.), 68
- Bigeminy, atrial, concealed: mechanisms of disappearance and reappearance of manifest extrasystoles (Kinoshita et al.), 919
- Biopsy, endomyocardial, in Henoch-Schönlein purpura (Keraiakes, Ports, and Finkbeiner), 382 (Brief comm.)
- Biventricular dissociation, local right ventricular electrogram for ECG-gated cardiac scintigraphy to assess right ventricular function during (Manyari et al.), 385 (Brief comm.)
- Block, AV, supra-Hisian, intermittent, verapamil effects in AV node reentry tachycardia with (Hamer et al.), 431
- heart, congenital complete, in identical twins, endocardial fibroelastosis with (Rios, Duff, and Simpson), 1290 (Brief comm.)
- Blockade, beta-adrenoceptor, role of prophylactic: prevention of myocardial reinfarction and of sudden death in survivors of acute myocardial infarction (Singh and Venkatesh), 189
- cholinergic, in humans, pressor and depressor responses after (Goldstein and Keiser), 974
- Blood flow, myocardial, and infarction salvage during coronary artery occlusion in dogs, effect of whole-body hypothermia on (Voorhees, Abendschein, and Tacker), 945
- and segmental shortening, variable effects of intracoronary nitroglycerin on according to dose and degree of coronary occlusion (Weintraub et al.), 707
- velocity, evaluation of in the ascending aorta and main pulmonary artery of normal subjects by Doppler echocardiography (Gardin et al.), 310
- pressure, serum lipids, smoking, diabetes, health knowledge, and behavior: cardiovascular risk factors among urban American Indians (Gillum, Gillum, and Smith), 765
- Bookshelf, 816, 1052
- Branch stenosis, peripheral left pulmonary artery, scimitar syndrome with (Platia and Brinker), 594 (Brief comm.)
- Bronchial-to-coronary artery anastomosis and multiple pulmonary cysts with angina pectoris (Saito et al.), 1037 (Brief comm.)

- Bruce protocol, modified, errors in predicting functional capacity for postmyocardial infarction patients using a (Sullivan and McKirnan), 486
- Bypass, cardiopulmonary, preservation of interventricular septal function in patients having coronary artery bypass grafts without (Akins, Boucher, and Pohost), 304
- regional myocardial perfusion measured by the avalanche radiation probe during: pharmacologic and physiologic alterations (Karlsberg et al.), 367
- grafts, coronary artery, without cardiopulmonary bypass, preservation of interventricular septal function in patients having (Akins, Boucher, and Pohost), 304
- surgery, coronary artery, and balloon-catheter dilatation, implications in: role of platelet antagonists in coronary artery disease (Mehta), 859
- and percutaneous transluminal coronary angioplasty including surgery for failed angioplasty, comparison of (Jones, Murphy, and Craver), 830
- role of after intracoronary streptokinase infusion for myocardial infarction (Walker et al.), 826
- C**
- Ca<sup>++</sup> influx into myocardial cells and blockade by calcium antagonistic drugs, cyclic AMP and phosphorylation in regulation of (Sperelakis), 347
- Calcification, mitral annular: clinical, pathophysiology, and echocardiographic review (Nestico et al.), 989
- of tricuspid annulus diagnosed by two-dimensional echocardiography (Mattlemann et al.), 986
- Calcium-acetylcholine interactions in the canine atrium and sinus node (Loeb and deTarnowsky), 1161
- antagonistic drugs, cyclic AMP and phosphorylation in regulation of Ca<sup>++</sup> influx into myocardial cells and blockade by (Sperelakis), 347
- involvement of in coronary vasoconstriction due to prolonged hypoxia (Karmazyn, Beamish, and Dhalla), 293
- Capillary wedge pressure, pulmonary, in mitral regurgitation, noninvasive assessment of (Gamble, Salerni, and Shaver), 950
- Carcinoid heart disease, echocardiographic features of (Reid et al.), 901 (Brief comm.)
- two-dimensional echocardiography in the diagnosis of (Forman et al.), 492
- Cardiac angiograms, influence of bias on the subjective interpretation of (Diamond et al.), 68
- arrest, prehospital, abnormal quinidine binding in survivors of (Kessler et al.), 665
- death, sudden, without associated myocardial infarction, prognosis after: One year follow-up of empiric therapy with amiodarone (Peter et al.), 209
- involvement, noneffusive, two-dimensional echocardiography in the detection of by intrathoracic neoplasms (Cohen, Raible, and Ansinelli), 532
- output and ventricular volumes, attenuation correction of equilibrium radionuclide angiography for noninvasive quantitation of (Petru et al.), 1221
- patients, stroke volume in, comparison of noninvasive pulsed Doppler and Fick measurements of (Loepky et al.), 339
- strangulation, fatal, by congenital partial pericardial defect (Jones and McManus), 183 (Brief comm.)
- tamponade, acute right ventricular dilation and echocardiographic volume overload following pericardiocentesis for relief of (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)
- transplant recipients, comparison of patients with ischemic, myopathic, and rheumatic heart diseases as (Lanza et al.), 8
- tumors, metastatic, in pediatric patients, two-dimensional echocardiography for evaluation of (Grenadier et al.), 122
- valves, effects of laser irradiation on: transcatheter in vivo vaporization of aortic valve (Lee et al.), 394 (Brief comm.)
- Cardiogenic shock following acute myocardial infarction, prenatol in (Coma-Canella, Lopez-Sendon, and Jadraque), 1195
- Cardiokymography exercise test compared to the thallium-201 perfusion exercise test in the diagnosis of coronary artery disease (Burke et al.), 718
- Cardiology, clinical, recognition of the hypersomnia-sleep apnea syndrome in (Burack), 543
- Cardiomyopathy, catecholamine-induced, defect in the adrenergic receptor-adenylate cyclase system during development of (Corder et al.), 537
- congestive, echographic early systolic partial closure (notching) of the aortic valve in (Gardin, Tommaso, and Talano), 135
- responsive to immunosuppression, mild myocardial inflammation presenting as (Shanes et al.), 798 (Brief comm.)
- dilated, clinical and pathologic findings of myocarditis in two families with (O'Connell et al.), 127
- hypertrophic, familial, and preexcitation (Hauser, Gordon, and Timmis), 176 (Brief comm.)
- Cardiopulmonary bypass, preservation of interventricular septal function in patients having coronary artery bypass grafts without (Akins, Boucher, and Pohost), 304
- regional myocardial perfusion measured by the avalanche radiation probe during: pharmacologic and physiologic alterations (Karlsberg et al.), 367
- oscillations, long-wavelength, implications of: nonlinear dynamics in heart failure (Goldberger et al.), 612
- Cardioscintigraphy, ECG-gated, to assess right ventricular function during biventricular dissociation, local right ventricular electrogram for (Manyari et al.), 385 (Brief comm.)
- Cardiovascular drugs, other, interaction of mexiletine with (Bigger), 1079
- risk factors among urban American Indians: blood pressure, serum lipids, smoking, diabetes, health knowledge, and behavior (Gillum, Gillum, and Smith), 765
- Care unit, coronary, effectiveness (Spodick), 399 (Letter)
- Reply (Morris, Roos, and Ross), 400
- Catecholamine-induced cardiomyopathy, defect in the adrenergic receptor-adenylate cyclase system during development of (Corder et al.), 537
- Catheter, pacing, new temporary atrial, clinical evaluation of a: results in 100 patients (Littleford et al.), 237
- Catheterization, transseptal balloon, of the left ventricle in adult valvular heart disease (Lam, Juska, and Pietras), 147
- Cautery cap, metal, laser-heated, fiberoptic, dissolution of human atherosclerotic disease by (Lee et al.), 777 (Brief comm.)
- Chagasic myocarditis, chronic, efficacy of amiodarone during long-term treatment of malignant ventricular arrhythmias in patients with (Chiale et al.), 656
- Chemotherapy, visualization of pericardial thymoma and evaluation of by two-dimensional echocardiography (Ileceto et al.), 605 (Brief comm.)
- Chest pain and normal or intraluminal disease on arteriography, progression of coronary artery disease in patients with (Haft and Bachik), 35
- during percutaneous transluminal coronary angioplasty, significance of (Aueron, Gruentzig, and Meier), 578 (Brief comm.)
- Cholinergic blockade in humans, pressor and depressor responses after (Goldstein and Keiser), 974
- Cimetidine, effect of on digoxin kinetics and creatinine clearance (Ochs et al.), 170 (Brief comm.)
- Cineangiography in infants with congenital heart disease, accurate internal correction for magnification of (Baylen et al.), 113
- Classification of angina, numerical approach to (Wartak, Fenna, and Callaghan), 402
- Clearance, myocardial, quantitative analysis of serial thallium-201 imaging after dipyridamole for coronary disease detection using (Okada et al.), 475
- Clinical and pathologic findings of myocarditis in two families with dilated cardiomyopathy (O'Connell et al.), 127

- AV, in sick sinus node syndrome patients with implanted atrial pacemakers, stability of (Hayes and Furman), 644
- 1-1, atrial flutter with: electrophysiologic and histologic correlations (Blanc et al.), 1044 (Brief comm.)
- curves, discontinuous anterograde atrioventricular nodal, with and without documented supraventricular tachycardia, initiation of atrioventricular nodal reentrant tachycardia in patients with: observations on role of a discontinuous retrograde conduction curve (Brugada et al.), 685
- delay, ischemia-induced, and ventricular arrhythmias, relationship between in closed-chest animals within 24 hours of myocardial infarction (Fujimoto et al.), 201
- disturbances, nodal, atrioventricular, right ventricular involvement with acute inferior wall myocardial infarction identifies high risk of developing (Braat et al.), 1183
- times, long, accessory pathway with, differentiation between atrial tachycardia and reciprocating atrioventricular tachycardia using an: observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- ventriculoatrial, shortening of in patients with left-sided Kent bundles (Cinca et al.), 912
- Congenital disorders of the mitral valve, two-dimensional echo Doppler study of (Grenadier et al.), 319
- heart disease, complex, two-dimensional echocardiographic evaluation of overriding and straddling atrioventricular valves associated with (Barron et al.), 1006
- infants with, accurate internal correction for the magnification of cineangiography in (Baylen et al.), 113
- partial pericardial defect, fatal cardiac strangulation by (Jones and McManus), 183 (Brief comm.)
- Congenitally malformed heart, appearance of the with ECG-gated nuclear magnetic resonance imaging (Jacobstein et al.), 1014
- Congestive cardiomyopathy, echographic early systolic partial closure (notching) of the aortic valve in (Gardin, Tommaso, and Talano), 135
- responsive to immunosuppression, mild myocardial inflammation presenting as (Shanes et al.), 798 (Brief comm.)
- heart failure, severe, high prevalence of nonsustained ventricular tachycardia in (Maskin, Siskind, and Lejemtel), 896
- Constrictive pericarditis associated with sarcoidosis (Garrett, O'Neill, and Blake), 394 (Brief comm.)
- eosinophilic (Virmani et al.), 803 (Brief comm.)
- Contraceptive users, oral, from a community survey, plasma renin substrate, renin activity, and aldosterone levels in a sample of (Goldhaber et al.), 119
- Contraction abnormalities, regional, effects of: endocardial activation in patients with coronary artery disease (Wiener, Mindich, and Pitchon), 1146
- Contrast appearance time, myocardial, use of to measure coronary flow reserve: application of digital techniques to selective coronary arteriography (Vogel et al.), 153
- echocardiographic documentation of paradoxical embolism (Rodgers, Singh, and Meister), 1270 (Brief comm.)
- echocardiography, diagnosis of paradoxical embolism with (Higgins, Strunk, and Schiller), 375 (Brief comm.)
- of pulmonary regurgitation by (Meltzer et al.), 102
- Coronary angioplasty, higher balloon dilatation pressure in (Meier et al.), 619
- transluminal, percutaneous, and coronary artery bypass surgery including surgery for failed angioplasty, comparison of (Jones, Murphy, and Craver), 830
- in acute myocardial infarction (Pepine et al.), 820
- Coronary angioplasty, transluminal, percutaneous—continued
- significance of chest pain during (Aueron, Gruentzig, and Meier), 578 (Brief comm.)
- : 6 years' experience (Gruentzig), 818
- arteriography, selective application of digital techniques to: use of myocardial contrast appearance time to measure coronary flow reserve (Vogel et al.), 153
- arteriovenous fistulas and Kawasaki's disease, evaluation in: systematic visualization of coronary arteries by two-dimensional echocardiography in children and infants (Satomi et al.), 497
- artery(ies) balloon-catheter dilatation, adjunctive operative: review of Lenox Hill experience (Wallah et al.), 856
- intraoperative (Fogarty and Kinney), 845
- bypass grafts without cardiopulmonary bypass, preservation of interventricular septal function in patients having (Akins, Boucher, and Pohost), 304
- surgery and balloon-catheter dilatation, implications in: role of platelet antagonists in coronary artery disease (Mehta), 859
- and percutaneous transluminal coronary angioplasty including surgery for failed angioplasty, comparison of (Jones, Murphy, and Craver), 830
- role of after intracoronary streptokinase infusion for myocardial infarction (Walker et al.), 826
- disease, cardiokymography exercise test compared to the thallium-201 perfusion exercise test in the diagnosis of (Burke et al.), 718
- chronic, suppression of high-grade ventricular ectopic activity by antiarrhythmic drug treatment as a marker for survival in patients with (Hoffmann et al.), 1103
- effect of prolonged intense endurance training on systolic time intervals in patients with (Martin et al.), 75
- endocardial activation in patients with: effects of regional contraction abnormalities (Wiener, Mindich, and Pitchon), 1146
- intraoperative balloon-catheter dilatation in treatment of (Jones and King), 836
- ocult, serum lipids as indicators of assessed by angiography (Ramsdale et al.), 811
- progression of in patients with chest pain and normal or intraluminal disease on arteriography (Haft and Bachik), 35
- right ventricular function in as assessed by two-dimensional echocardiography (Panidis et al.), 1187
- role of platelet antagonists in: implications in coronary artery bypass surgery and balloon-catheter dilatation (Mehta), 859
- thromboxane release in: spontaneous versus pacing-induced angina (Mehta et al.), 286
- experience with operative transluminal balloon-catheter dilatation of the (Mills and Doyle), 838
- normal, myocardial infarction with complicated by ventricular septal rupture (St. Louis et al.), 1259 (Brief comm.)
- occlusion, brief, decreased systolic wall thickening in myocardium adjacent to ischemic zones in conscious swine during (Guth et al.), 458
- in dogs, effect of whole-body hypothermia on myocardial blood flow and infarct salvage during (Voorhees, Abendschein, and Tacker), 945
- reperfusion, late, effects of after myocardial necrosis is complete (Geft et al.), 623
- right and left, common origin of from the region of left sinus of Valsalva: association with unexpected intrauterine fetal death (Muus and McManus), 1285 (Brief comm.)
- septal, systolic compression of with septal ischemia by thallium-201 scintigraphy (Ugarte et al.), 1039 (Brief comm.)
- systematic visualization of by two-dimensional echocardiography in children and infants: evaluation in Kawasaki's disease and coronary arteriovenous fistulas (Satomi et al.), 497
- tumor metastasis, fatal (Lasky), 785 (Brief comm.)
- care unit effectiveness (Spodick), 399 (Letter)
- Reply (Morris, Roos, and Ross), 400
- disease detection, serial thallium-201 imaging after dipyridamole for: quantitative analysis using myocardial clearance (Okada et al.), 475

## Coronary disease—continued

- nonexercise-dependent screening test for: thallium scintigraphy during dobutamine infusion (Mason et al.), 481
- patients, prevalence and clinical significance of the repetitive ventricular response during sinus rhythm in (Breithardt et al.), 229
- usefulness of cold pressor test during two-dimensional echocardiography in detection of patients with (Gondi and Nanda), 278
- flow limitation precedes angina: sequential changes in regional coronary flow during pacing-induced angina pectoris (Wilson et al.), 269
- regional, sequential changes in during pacing-induced angina pectoris: coronary flow limitation precedes angina (Wilson et al.), 269
- reserve, use of myocardial contrast appearance time to measure: application of digital techniques to selective coronary arteriography (Vogel et al.), 153
- heart disease and hematocrit (Cohn), 186 (Letter)
- Reply (Carter and Reed), 186
- intervention, early prehospital transtelephonic, effect of on morbidity and mortality: experience with 284 post-myocardial infarction patients in a pilot program (Capone et al.), 1153
- occlusion, acute, during balloon angioplasty due to intracoronary thrombus and coronary spasm: a reversible complication (Ischinger, Zack, and Aker), 1271 (Brief comm.)
- patients and normal subjects, influence of heart rate on exercise-induced R wave amplitude changes in (de Caprio et al.), 61
- spasm, ergonovine-induced, refractory to intracoronary nitroglycerin but responsive to nitroprusside (Hastey, Erwin, and Ramanathan), 778 (Brief comm.)
- provoked by angiography (Dodek and Hooper), 781 (Brief comm.)
- thrombosis, experimental, beneficial effects of nafazatrom (BAYg6575) on (Shea et al.), 629
- to-bronchial artery anastomosis and multiple pulmonary cysts with angina pectoris (Saito et al.), 1037 (Brief comm.)
- vasoconstriction due to prolonged hypoxia, involvement of calcium in (Karmazyn, Beamish, and Dhalla), 293
- Creatinine clearance and digoxin kinetics, effect of cimetidine on (Ochs et al.), 170 (Brief comm.)
- CT scan correlation with clinical and echocardiographic findings: P wave changes in intracerebral hemorrhage (Stolar et al.), 784 (Brief comm.)
- Cyclase, adenylate, -adrenergic receptor system, defect in during development of catecholamine-induced cardiomyopathy (Corder et al.), 537
- Cyclic AMP and phosphorylation in regulation of  $Ca^{++}$  influx into myocardial cells and blockade by calcium antagonistic drugs (Sperelakis), 347
- Cysts, pulmonary, multiple, with angina pectoris, coronary-to-bronchial artery anastomosis and (Saito et al.), 1037 (Brief comm.)

## D

- Death, sudden cardiac, without associated myocardial infarction, prognosis after: One year follow-up of empiric therapy with amiodarone (Peter et al.), 209
- in an asymptomatic young man with notched T waves and QT prolongation (Karjalainen and Heikkilä), 1040 (Brief comm.)
- in primary mitral valve prolapse (Pocock et al.), 378 (Brief comm.)
- prevention of myocardial reinfarction and of in survivors of acute myocardial infarction: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189
- unexpected, epidemiology of: risk factors for men and women in the Framingham Heart Study (Schatzkin et al.), 1300
- Defect, pericardial, congenital partial, fatal cardiac strangulation by (Jones and McManus), 183 (Brief comm.)
- Dehiscence, porcine mitral prosthesis, echocardiographic diagnosis of. A new finding (Slavich, Pinamonti, and De Piccoli), 172 (Brief comm.)
- Demand pacemaker myopotential inhibition, unipolar, Holter monitoring and provocative maneuvers in assessment of (Gaita et al.), 925
- Depressor and pressor responses after cholinergic blockade in humans (Goldstein and Keiser), 974
- Diabetes, blood pressure, serum lipids, smoking, health knowledge, and behavior: cardiovascular risk factors among urban American Indians (Gillum, Gillum, and Smith), 765
- Diaphragm, fibromuscular, double-chambered right ventricle due to (Bashour et al.), 792 (Brief comm.)
- Diastolic prolapse of intimal flap into left ventricle: unusual echographic findings in aortic dissection (Come et al.), 790 (Brief comm.)
- Digital techniques, application of to selective coronary arteriography: use of myocardial contrast appearance time to measure coronary flow reserve (Vogel et al.), 153
- Digitalis glycosides, update on the influence of quinidine and other agents on (Bussey), 143
- Digoxin concentrations, serum, in patients, effect of nifedipine on (Schwartz, Raizner, and Akers), 669
- kinetics and creatinine clearance, effect of cimetidine on (Ochs et al.), 170 (Brief comm.)
- Dilatation, balloon-catheter, and coronary artery bypass surgery, implications in: role of platelet antagonists in coronary artery disease (Mehta), 859
- coronary artery, adjunctive operative: review of Lenox Hill experience (Wallsh et al.), 856
- intraoperative (Fogarty and Kinney), 845
- intraoperative, in treatment of coronary artery disease (Jones and King), 836
- : University of Florida experience (Faro et al.), 841
- retrograde, intraoperative, to augment myocardial revascularization (Ross et al.), 851
- transluminal, operative, of the coronary arteries, experience with (Mills and Doyle), 838
- pressure, balloon, higher, in coronary angioplasty (Meier et al.), 619
- Dilated cardiomyopathy, clinical and pathologic findings of myocarditis in two families with (O'Connell et al.), 127
- Dilation, right ventricular, acute, and echocardiographic volume overload following pericardiocentesis for relief of cardiac tamponade (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)
- Diltiazem, high-dose, in chronic stable exertional angina, long-term study of (Hossack et al.), 1215
- propranolol, and placebo, comparative effects of on exercise performance using radionuclide ventriculography in patients with symptomatic, coronary artery disease: results of a double-blind, randomized crossover study (Anderson et al.), 698
- Dipyridamole, serial thallium-201 imaging after for coronary disease detection: quantitative analysis using myocardial clearance (Okada et al.), 475
- Discrete membranous subaortic stenosis: ECG and vectorcardiographic findings (Bliden et al.), 1293 (Brief comm.)
- Discussion: Summing up of Symposium on New Techniques in Therapeutic Coronary Catheterization including Intraoperative Angioplasty (Pepine, Conti, and Roberts), 870
- Dissecting aortic aneurysm, rupture of into the right atrium: clinical and echocardiographic recognition (Nicod et al.), 1276 (Brief comm.)
- Dissection, aortic, unusual echographic findings in: diastolic prolapse of intimal flap into left ventricle (Come et al.), 790 (Brief comm.)
- ascending aortic aneurysm, unusual echocardiographic image of (Steriotis, Athanasopoulos, and Aravanis), 1023 (Brief comm.)
- Dissolution of human atherosclerotic disease by fiberoptic laser-heated metal cautery cap (Lee et al.), 777 (Brief comm.)
- Distensibility, right ventricular, reduced, echographic premature pulmonic valve opening, sign of (Benito et al.), 1029 (Brief comm.)
- Diuretic, vasodilator, and positive inotropic drugs in left ventricular failure following acute myocardial infarction, hemodynamic trial of sequential treatment with (Nelson et al.), 1202

- Dobutamine infusion, thallium scintigraphy during: nonexercise-dependent screening test for coronary disease (Mason et al.), 481
- on exercise performance in patients with symptomatic ischemic heart disease, effect of (Rabinovitch et al.), 81
- Dogs, conscious, telemetry of electrophysiologic variables from: system design, validation, and serial studies (Rubenson et al.), 90
- Doppler and Fick measurements of stroke volume, noninvasive pulsed, comparison of in cardiac patients (Loepky et al.), 339
- echocardiographic features of mechanical alternans (Schuster and Nanda), 580 (Brief comm.)
- echocardiography, continuous-wave, aortic flow velocity in older subjects using (Vijayaraghavan et al.), 1275 (Brief comm.)
- evaluation of blood flow velocity in the ascending aorta and main pulmonary artery of normal subjects by (Gardin et al.), 310
- study, echo, two-dimensional, of congenital disorders of the mitral valve (Grenadier et al.), 319
- Double-chambered right ventricle due to fibromuscular diaphragm (Bashour et al.), 792 (Brief comm.)
- d-propranolol, acebutolol, and atenolol, effects of on isolated working rat hearts subject to myocardial ischemia and reperfusion: role of beta-adrenoreceptor antagonism in the prevention of reperfusion ventricular arrhythmias (Rochette et al.), 1132
- Drugs, cardiovascular, other, interaction of mexiletine with (Bigger), 1079
- Dynamics, nonlinear, electrical alternans, and pericardial tamponade (Goldberger et al.), 1297
- Dysfunction, ischemic wall, detection of: comparison between M-mode echocardiography and sonomicrometry (Guth et al.), 449

# E

- Ear pain due to myocardial ischemia (Bryhn and Hindfelt), 186 (Letter)
- Echo Doppler study, two-dimensional, of congenital disorders of the mitral valve (Grenadier et al.), 319
- Echocardiogram, interatrial septal: relationship to left atrial volume change in the normal and diseased heart (Chung-Sheng, Hon-Yuan, and Yih), 519
- Echocardiographic abnormalities in tuberculous pericardial effusion (Chia et al.), 1032 (Brief comm.)
- and clinical features of right atrial masses (Panidis et al.), 745
- of right heart endocarditis (Panidis et al.), 759
- assessment of radiation-induced valvular heart disease, two-dimensional (Detrano, Yiannikas, and Salcedo), 584 (Brief comm.)
- diagnosis of porcine mitral prosthesis dehiscence. A new finding (Slavich, Pinamonti, and De Piccoli), 172 (Brief comm.)
- of unruptured sinus of Valsalva aneurysm (Lewis and Athangelou), 1025 (Brief comm.)
- documentation, contrast, of paradoxical embolism (Rodgers, Singh, and Meister), 1270 (Brief comm.)
- evaluation, two-dimensional, of overriding and straddling atrioventricular valves associated with complex congenital heart disease (Barron et al.), 1006
- of right ventricular infarction (Jugdutt et al.), 505
- features of carcinoid heart disease (Reid et al.), 801 (Brief comm.)
- of hemopericardium (García-Fernández et al.), 1035 (Brief comm.)
- of mechanical alternans, Doppler (Schuster and Nanda), 580 (Brief comm.)
- findings, M-mode and two-dimensional, in pulmonic valve endocarditis (Berger et al.), 391 (Brief comm.)
- unusual, triple-valve endocarditis with (Rippe et al.), 598 (Brief comm.)
- identification, two-dimensional, of epicardial pacemaker wire perforation (Chazal and Feigenbaum), 165 (Brief comm.)

# Echocardiographic—continued

- image of ascending aortic aneurysm dissection, unusual (Steriotis, Athanasopoulos, and Aravanis), 1023 (Brief comm.)
- pathophysiology, and clinical review of mitral annular calcification (Nestico et al.), 989
- preoperative prediction, two-dimensional, of prosthetic aortic valve size (Cohen et al.), 108
- study, M-mode, of transient changes in left ventricular mechanics during attacks of Prinzmetal's angina (Distante et al.), 465
- volume overload and acute right ventricular dilation following pericardiocentesis for relief of cardiac tamponade (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)
- Echocardiography, contrast, diagnosis of paradoxical embolism with (Higgins, Strunk, and Schiller), 375 (Brief comm.)
- of pulmonic regurgitation by (Meltzer et al.), 102
- Doppler, continuous-wave, aortic flow velocity in older subjects using (Vijayaraghavan et al.), 1275 (Brief comm.)
- evaluation of blood flow velocity in the ascending aorta and main pulmonary artery of normal subjects by (Gardin et al.), 310
- M-mode, and sonomicrometry, comparison between in detection of ischemic wall dysfunction (Guth et al.), 449
- of porcine aortic prosthesis with flail leaflets due to degeneration and calcification (Bansal, Morrison, and Jacobson), 591 (Brief comm.)
- subcostal M-mode, of right atrial wall for differentiation of supraventricular tachyarrhythmias with aberration from ventricular tachycardia (Drinković), 326
- two-dimensional, assessment of right ventricular function using (Kaul et al.), 526
- calcification of tricuspid annulus diagnosed by (Mattleman et al.), 986
- cold pressor test during: usefulness in detection of patients with coronary disease (Gondi and Nanda), 278
- for evaluation of metastatic cardiac tumors in pediatric patients (Grenadier et al.), 122
- in pulmonary embolism, surgical removal of right atrial thromboembolus detected by (Nestico et al.), 1278 (Brief comm.)
- in the detection of noneffusive cardiac involvement by intrathoracic neoplasms (Cohen, Raible, and Ansineili), 532
- in the diagnosis of carcinoid heart disease (Forman et al.), 492
- of ruptured pulmonic valve with infective endocarditis (Suwa et al.), 1027 (Brief comm.)
- right ventricular function in coronary artery disease as assessed by (Panidis et al.), 1187
- systematic visualization of coronary arteries by in children and infants: evaluation in Kawasaki's disease and coronary arteriovenous fistulas (Satomi et al.), 497
- transesophageal, intraoperative detection of changes in LV segmental wall motion by (Beaupre et al.), 1021 (Brief comm.)
- visualization of pericardial thymoma and evaluation of chemotherapy by (Ilceto et al.), 605 (Brief comm.)
- Echographic early systolic partial closure (notching) of the aortic valve in congestive cardiomyopathy (Gardin, Tommaso, and Talano), 135
- findings, unusual, in aortic dissection: diastolic prolapse of intimal flap into left ventricle (Come et al.), 790 (Brief comm.)
- premature pulmonic valve opening: sign of reduced right ventricular distensibility (Benito et al.), 1029 (Brief comm.)
- Ectopic activity, high-grade ventricular, suppression of by antiarrhythmic drug treatment as a marker for survival in patients with chronic coronary artery disease (Hoffmann et al.), 1103
- beats, ventricular, in acute myocardial infarction, effects of intravenous nitroglycerin on (Bussmann, Neumann, and Kaltenbach), 940
- rate, antiarrhythmic-slowed, influence of on pacing termination of ventricular tachycardia (Keren, Miura, and Somberg), 638

- Effusion, pericardial, tuberculous, echocardiographic abnormalities in (Chia et al.), 1032 (Brief comm.)
- Ejection fraction, right ventricular and left ventricular, in pediatric patients with normal hearts: first-pass radionuclide angiography (Hurwitz, Treves and Kuruc), 726
- phase indices of performance and myocardial function, relationship between during development of pressure overload hypertrophy (Hoffman and Covell), 738
- Electrical activity, fragmented endocardial, in patients with ventricular tachycardia: a new guide to surgical therapy (Wiener, Mindich, and Pitchon), 86
- alternans, nonlinear dynamics, and pericardial tamponade (Goldberger et al.), 1297
- instability, no, after intracoronary streptokinase administered into sinus node or AV node of dogs (Epstein, Urthaler, and James), 902
- Electrocardiographic and vectorcardiographic findings in discrete membranous subaortic stenosis (Blieden et al.), 1293 (Brief comm.)
- gated cardioscintigraphy to assess right ventricular function during biventricular dissociation, local right ventricular electrogram for (Manyari et al.), 385 (Brief comm.)
- nuclear magnetic resonance imaging: appearance of the congenitally malformed heart (Jacobstein et al.), 1014
- Electrocardiography, ambulatory, and radionuclide ventriculography, identification at hospital discharge by of the high-risk acute myocardial infarction patient at 1-year follow-up (Olson et al.), 358
- Electrogram, right ventricular, local, for ECG-gated cardioscintigraphy to assess right ventricular function during biventricular dissociation (Manyari et al.), 385 (Brief comm.)
- Electrophysiologic and hemodynamic effects of propafenone, a new antiarrhythmic agent, on the anesthetized, closed-chest dog: comparative study with lidocaine (Karagueuzian et al.), 418
- characteristics of the transplanted human heart (Bexton et al.), 1
- effects and mechanisms of termination of supraventricular tachycardia by intravenous amiodarone (Gomes et al.), 214
- of ethmozin in patients with ventricular tachycardia (Mann et al.), 674
- of intravenous metoprolol (Marchlinski et al.), 1125
- techniques, role of with oral mexiletine in treatment of refractory ventricular arrhythmias (Schoenfeld et al.), 1071
- variables from conscious dogs, telemetry of: system design, validation, and serial studies (Rubenson et al.), 90
- Electrophysiology, clinical, of intravenous sotalol, a beta-blocking drug with class III antiarrhythmic properties (Touboul et al.), 888
- Elimination of amiodarone, prolonged, following cessation of chronic therapy (Wilkinson et al.), 787 (Brief comm.)
- Embolism, paradoxical, contrast echocardiographic documentation of (Rodgers, Singh, and Meister), 1270 (Brief comm.)
- diagnosis of with contrast echocardiography (Higgins, Strunk, and Schiller), 375 (Brief comm.)
- Endocardial activation in patients with coronary artery disease: effects of regional contraction abnormalities (Wiener, Mindich, and Pitchon), 1146
- electrical activity, fragmented, in patients with ventricular tachycardia: a new guide to surgical therapy (Wiener, Mindich, and Pitchon), 86
- fibroelastosis, isolated, of the right ventricle associated with pulmonary hypertension (Larson et al.), 1286 (Brief comm.)
- with congenital complete heart block in identical twins (Rios, Duff, and Simpson), 1290 (Brief comm.)
- pacing leads, ventricular, characterization of chronically implanted (Angello, McNulty, and Dobbs), 1142
- Endocarditis, infective, in infants and children during the past 10 years: a decade of change (Van Hare et al.), 1235
- two-dimensional echocardiography of ruptured pulmonic valve with (Suwa et al.), 1027 (Brief comm.)
- Endocarditis—continued
- pulmonic valve, M-mode and two-dimensional echocardiographic findings in (Berger et al.), 391 (Brief comm.)
- right heart: clinical and echocardiographic features (Panidis et al.), 759
- triple-valve, with unusual echocardiographic findings (Rippe et al.), 598 (Brief comm.)
- Endomyocardial biopsy in Henoch-Schönlein purpura (Ker-eakes, Ports, and Finkbeiner), 382 (Brief comm.)
- Endurance training, prolonged intense, effect of on systolic time intervals in patients with coronary artery disease (Martin et al.), 75
- Eosinophilic constrictive pericarditis (Virmani et al.), 803 (Brief comm.)
- Epicardial pacemaker wire perforation, two-dimensional echocardiographic identification of (Chazal and Feigenbaum), 165 (Brief comm.)
- Equations, generalized, for predicting functional capacity from treadmill performance (Foster et al.), 1229
- Equilibrium radionuclide angiography, attenuation correction of for noninvasive quantitation of cardiac output and ventricular volumes (Petru et al.), 1221
- Ergonovine-induced coronary spasm refractory to intracoronary nitroglycerin but responsive to nitroprusside (Hastey, Erwin, and Ramanathan), 778 (Brief comm.)
- episodes of variant angina, ventricular arrhythmias during (Szlachet et al.), 20
- Essential function of the right ventricle, the (Furey, Zieske, and Levy), 404
- hypertension, assessing sodium and potassium intake in (Gillum, Prineas, and Elmer), 549
- Ethmozin, electrophysiologic effects of in patients with ventricular tachycardia (Mann et al.), 674
- Exercise-induced R wave amplitude changes in coronary patients and normal subjects, influence of heart rate on (de Caprio et al.), 61
- performance in patients with symptomatic ischemic heart disease, effect of dobutamine on (Rabinovitch et al.), 81
- using radionuclide ventriculography in patients with symptomatic coronary artery disease, comparative effects of diltiazem, propranolol, and placebo on: results of a double-blind, randomized, crossover study (Anderson et al.), 698
- supine compared to erect, increased myocardial ischemia during demonstrated by thallium-201 myocardial perfusion imaging (Kelly et al.), 1263 (Brief comm.)
- test, cardiokymography, compared to the thallium-201 perfusion exercise test in the diagnosis of coronary artery disease (Burke et al.), 718
- thallium-201 perfusion, compared to the cardiokymography exercise test in the diagnosis of coronary artery disease (Burke et al.), 718
- testing, treadmill, repeat: variability of results in patients with angina pectoris (Starling et al.), 298
- Exertional angina, chronic stable, long-term study of high-dose diltiazem in (Hossack et al.), 1215
- Extrasystoles, manifest, mechanisms of disappearance and reappearance of: concealed atrial bigeminy (Kinoshita et al.), 919

## F

- Familial hypertrophic cardiomyopathy and preexcitation (Hauser, Gordon, and Timmis), 176 (Brief comm.)
- Fatal cardiac strangulation by congenital partial pericardial defect (Jones and McManus), 183 (Brief comm.)
- coronary artery tumor metastasis (Lasky), 785 (Brief comm.)
- Fetal death, intrauterine, unexpected, association with: common origin of right and left coronary arteries from the region of left sinus of Valsalva (Muus and McManus), 1285 (Brief comm.)
- Fiberoptic laser-heated metal cautery cap, dissolution of human atherosclerotic disease by (Lee et al.), 777 (Brief comm.)
- Fibrillation, atrial, in pericardial disease (Spodick), 809 (Letter)
- Reply (Goldberger and John Mancini), 810

- Fibrinopeptide A and beta thromboglobulin in patients with angina pectoris and acute myocardial infarction (van Hulsteijn et al.), 39
- Fibroelastosis, endocardial, isolated, of the right ventricle associated with pulmonary hypertension (Larson et al.), 1286 (Brief comm.)
- with congenital complete heart block in identical twins (Rios, Duff, and Simpson), 1290 (Brief comm.)
- Fibromuscular diaphragm, double-chambered right ventricle due to (Bashour et al.), 792 (Brief comm.)
- Fick and Doppler measurements of stroke volume, noninvasive pulsed, comparison of in cardiac patients (Loepky et al.), 339
- Fistulas, arteriovenous, coronary, and Kawasaki's disease, evaluation in: systematic visualization of coronary arteries by two-dimensional echocardiography in children and infants (Satomi et al.), 497
- Flail leaflets due to degeneration and calcification, echocardiography of porcine aortic prosthesis with (Bansal, Morrison, and Jacobson), 591 (Brief comm.)
- Flecainide acetate, new antiarrhythmic agent, proarrhythmic effects of the (Nathan et al.), 222
- Flow reserve, coronary, use of myocardial contrast appearance time to measure: application of digital techniques to selective coronary arteriography (Vogel et al.), 153
- velocity, aortic, in older subjects using continuous-wave Doppler echocardiography (Vijayaraghavan et al.), 1275 (Brief comm.)
- Flutter, atrial, nonsustained, induction of by programmed atrial stimulation in children: incidence, mechanisms, and clinical implications (Casta et al.), 444
- with 1-1 atrioventricular conduction: electrophysiologic and histologic correlations (Blanc et al.), 1044 (Brief comm.)
- Forearm venous pressure-volume relationship, radionuclide analysis of: response to nitroglycerin (Dittrich and Slutsky), 733
- Fragmented endocardial electrical activity in patients with ventricular tachycardia: a new guide to surgical therapy (Wiener, Mindich, and Pitchon), 86
- Framingham Heart Study, risk factors for men and women in: epidemiology of sudden unexpected death (Schatzkin et al.), 1300
- Free wall, right ventricular, total disconnection of the: physiological consequences in the dog (Jones, Guiraudon, and Klein), 1169
- Functional capacity, errors in predicting for postmyocardial infarction patients using a modified Bruce protocol (Sullivan and McKirnan), 486
- generalized equations for predicting from treadmill performance (Foster et al.), 1229

## G

- Glycosides, digitalis, update of the influence of quinidine and other agents on (Bussey), 143
- Grafts, bypass, coronary artery, without cardiopulmonary bypass, preservation of interventricular septal function in patients having (Akins, Boucher, and Pohost), 304
- Great arteries, transposition of the, transumbilical balloon atrial septostomy for in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)

## H

- Health knowledge, blood pressure, serum lipids, smoking, diabetes, and behavior: cardiovascular risk factors among urban American Indians (Gillum, Gillum, and Smith), 765
- Heart(s) block, congenital complete, in identical twins, endocardial fibroelastosis with (Rios, Duff, and Simpson), 1290 (Brief comm.)
- congenitally malformed, appearance of the with ECG-gated nuclear magnetic resonance imaging (Jacobstein et al.), 1014

- Heart(s)—continued
- disease(s), carcinoid, echocardiographic features of (Reid et al.), 801 (Brief comm.)
- two-dimensional echocardiography in the diagnosis of (Forman et al.), 492
- congenital, complex, two-dimensional echocardiographic evaluation of overriding and straddling atrioventricular valves associated with (Barron et al.), 1006
- infants with, accurate internal correction for the magnification of cineangiography in (Baylen et al.), 113
- coronary, and hematocrit (Cohn), 186 (Letter)
- Reply (Carter and Reed), 186
- ischemic, chronic stable, efficacy of amiodarone during long-term treatment of potentially dangerous ventricular arrhythmias in patients with (Kaski et al.), 648
- myopathic, and rheumatic, comparison of patients with as cardiac transplant recipients (Lanza et al.), 8
- symptomatic, effect of dobutamine on exercise performance in patients with (Rabinovitch et al.), 81
- valvular, adult, transseptal balloon catheterization of the left ventricle in (Lam, Juska, and Pietras), 147
- radiation-induced, two-dimensional echocardiographic assessment of (Detrano, Yiannikas, and Salcedo), 584 (Brief comm.)
- failure, congestive, severe, high prevalence of nonsustained ventricular tachycardia in (Maskin, Siskind, and LeJemtel), 896
- nonlinear dynamics in: implications of long-wavelength cardiopulmonary oscillations (Goldberger et al.), 612
- normal and diseased, clinical characteristics of left ventricular pressure decline during isovolumic relaxation in (Katayama et al.), 332
- relationship of the interatrial septal echocardiogram to left atrial volume change in the (Chung-Sheng, Hon-Yuan, and Yih), 519
- rate on exercise-induced R wave amplitude changes in coronary patients and normal subjects, influence of (de Caprio et al.), 61
- Study, Framingham, risk factors for men and women in: epidemiology of sudden unexpected death (Schatzkin et al.), 1300
- transplanted human, the electrophysiologic characteristics of the (Bexton et al.), 1
- univentricular, management of infants with (Chen et al.), 1252
- Hematocrit and coronary heart disease (Cohn), 186 (Letter)
- Reply (Carter and Reed), 186
- Hemodynamic effects of intravenous verapamil in patients on chronic propranolol therapy (Reddy, Uretsky, and Steinfeld), 97
- of mexiletine (Shanks), 1065
- trial of sequential treatment with diuretic, vasodilator, and positive inotropic drugs in left ventricular failure following acute myocardial infarction (Nelson et al.), 1202
- Hemopericardium, echocardiographic features of (Garcia-Fernandez et al.), 1035 (Brief comm.)
- Hemorrhage, intracerebral, P wave changes in: clinical, echocardiographic, and CT scan correlation (Stolar et al.), 784 (Brief comm.)
- Henoch-Schönlein purpura, endomyocardial biopsy in (Ker-eakes, Ports, and Finkbeiner), 382 (Brief comm.)
- High-dose diltiazem in chronic stable exertional angina, long-term study of (Hossack et al.), 1215
- grade ventricular ectopic activity, suppression of by antiarrhythmic drug treatment as a marker for survival in patients with chronic coronary artery disease (Hoffmann et al.), 1103
- risk acute myocardial infarction patient, the, at 1-year follow-up: identification at hospital discharge by ambulatory electrocardiography and radionuclide ventriculography (Olson et al.), 358
- Holter monitoring and provocative maneuvers in assessment of unipolar demand pacemaker myopotential inhibition (Gaita et al.), 925
- Honks, tricuspid, phonoechocardiography in (Chia et al.), 1032 (Brief comm.)

- Hospital discharge identification of high-risk acute myocardial infarction patient at 1-year follow-up by ambulatory electrocardiography and radionuclide ventriculography (Olson et al.), 358
- Hypersomnia-sleep apnea syndrome: its recognition in clinical cardiology (Burack), 543
- Hypertension, essential, assessing sodium and potassium intake in (Gillum, Prineas, and Elmer), 549
- pulmonary, isolated endocardial fibroelastosis of the right ventricle associated with (Larson et al.), 1286 (Brief comm.)
- severe, and hypertensive emergencies, intravenous labetalol in management of (Cressman et al.), 980
- Hypertensive emergencies and severe hypertension, intravenous labetalol in management of (Cressman et al.), 980
- Hypertrophic cardiomyopathy, familial, and preexcitation (Hauser, Gordon, and Timmis), 176 (Brief comm.)
- Hypertrophy, pressure overload, relationship between ejection phase indices of performance and myocardial functions during development of (Hoffman and Covell), 738
- Hypophosphatemia, chronic, left ventricular function in patients with (Vered et al.), 796 (Brief comm.)
- Hypotension, orthostatic, due to prolactin-secreting pituitary adenoma (Ducloix et al.), 187 (Letter)
- Hypothermia, whole-body, effect of on myocardial blood flow and infarct salvage during coronary artery occlusion in dogs (Voorhees, Abendschein, and Tacker), 945
- Hypoxia, prolonged, involvement of calcium in coronary vasoconstriction due to (Karmazyn, Beamish, and Dhalla), 293
- I
- Imaging, serial thallium-201, after dipyridamole for coronary disease detection: quantitative analysis using myocardial clearance (Okada et al.), 475
- Immunosuppression, mild myocardial inflammation presenting as congestive cardiomyopathy responsive to (Shanes et al.), 798 (Brief comm.)
- Indians, American, urban, cardiovascular risk factors among: blood pressure, serum lipids, smoking, diabetes, health knowledge, and behavior (Gillum, Gillum, and Smith), 765
- Infants under the age of 60 hours, transumbilical balloon atrial septostomy for transposition of the great arteries in (Roguin et al.), 174 (Brief comm.)
- with congenital heart disease, accurate internal correction for the magnification of cineangiography in (Baylen et al.), 113
- Infarct salvage and myocardial blood flow during coronary artery occlusion in dogs, effect of whole-body hypothermia on (Voorhees, Abendschein, and Tacker), 945
- Infarctectomy, map-guided, treatment of refractory ventricular tachycardia complicating recovery from acute myocardial infarction with (Garan et al.), 571
- Infarction, myocardial, acute, and angina pectoris, fibrinolytic A and beta thromboglobulin in patients with (van Hulsteijn et al.), 39
- assessment of myocardial damage in patients with by serial measurement of serum alpha-hydroxybutyrate dehydrogenase levels (van der Laarse et al.), 248
- effects of verapamil in patients with: hemodynamics and function of normal and ischemic left ventricular myocardium (Heikkilä and Nieminen), 241
- evolving, intracoronary streptokinase in (Feldman et al.), 823
- inferior, anterolateral ST segment depression in: angiographic and clinical implications (Roubin et al.), 1177
- myoglobinemia in (Antonelli and Barzilay), 609 (Letter)
- Reply (Drexler et al.), 609
- patient, high-risk, at 1-year follow-up: identification at hospital discharge by ambulatory electrocardiography and radionuclide ventriculography (Olson et al.), 358
- percutaneous transluminal coronary angioplasty in (Pepine et al.), 820
- Infarction, myocardial, acute—continued
- prenalterol in cardiogenic shock following (Coma-Canella, Lopez-Sendon, and Jadraque), 1195
- prevention of myocardial reinfarction and of sudden death in survivors of: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189
- refractory ventricular tachycardia complicating recovery from: treatment with map-guided infarctectomy (Garan et al.), 571
- short-term prognosis in: evaluation of different prediction methods (Madsen, Gilpin, and Henning), 1241
- torsade de pointes complicating (Griffin and Most), 169 (Brief comm.)
- transmural and nontransmural, comparison of the influence of on ventricular function (Nicod et al.), 28
- relationship between ventricular arrhythmias and ischemia-induced conduction delay in closed-chest animals within 24 hours of (Fujimoto et al.), 201
- with normal coronary arteries complicated by ventricular septal rupture (St. Louis et al.), 1259 (Brief comm.)
- patients, postmyocardial, errors in predicting functional capacity for using a modified Bruce protocol (Sullivan and McKirnan), 486
- in a pilot program, experience with 284: effect of early prehospital transtelephonic coronary intervention on morbidity and mortality (Capone et al.), 1153
- right ventricular: two-dimensional echocardiographic evaluation (Jugdutt et al.), 505
- Infective endocarditis in infants and children during the past 10 years: a decade of change (Van Hare et al.), 1235
- two-dimensional echocardiography of ruptured pulmonary valve with (Suwa et al.), 1027 (Brief comm.)
- Inferior wall myocardial infarction, acute, right ventricular involvement with identifies high risk of developing atrioventricular nodal conduction disturbances (Braat et al.), 1183
- Inflammation, myocardial, mild, presenting as congestive cardiomyopathy responsive to immunosuppression (Shanes et al.), 798 (Brief comm.)
- Inotropic drugs, positive, vasodilator, and diuretic in left ventricular failure following acute myocardial infarction, hemodynamic trial of sequential treatment with (Nelson et al.), 1202
- stimulation, response of reperfusion-salvaged, stunned myocardium to (Ellis et al.), 13
- Interaction of mexiletine with other cardiovascular drugs (Bigger), 1079
- Interatrial septal echocardiogram: relationship to left atrial volume change in the normal and diseased heart (Chung-Sheng, Hon-Yuan, and Yih), 519
- Internal correction, accurate, for magnification of cineangiography in infants with congenital heart disease (Baylen et al.), 113
- Interpretation of cardiac angiograms, subjective, influence of bias on the (Diamond et al.), 68
- Interval(s), QT, and arrhythmias in athletes (Palatini and Sperti), 608 (Letter)
- Reply (Pantano), 608
- systolic time, in patients with coronary artery disease, effect of prolonged intense endurance training on (Martin et al.), 75
- Intervention Trial, Multiple Risk Factor, the: clinical trials and their effect on medical therapy (Moser), 616
- Interventricular septal function, preservation of in patients having coronary artery bypass grafts without cardiopulmonary bypass (Akins, Boucher, and Pohost), 304
- Intimal flap into left ventricle, diastolic prolapse of: unusual echographic findings in aortic dissection (Come et al.), 790 (Brief comm.)
- Intra-aortic balloon counterpulsation, early prosthetic mitral closure due to malfunctioning aortic prosthesis during (Gheorghiade et al.), 388 (Brief comm.)
- Intracerebral hemorrhage, P wave changes in: clinical, echocardiographic, and CT scan correlation (Stolar et al.), 784 (Brief comm.)
- Intracoronary nitroglycerin, variable effects of on myocardial blood flow and segmental shortening according to dose and degree of coronary occlusion (Weintraub et al.), 707
- streptokinase in evolving acute myocardial infarction (Feldman et al.), 823

Intracoronary streptokinase—*continued*

- infusion for myocardial infarction, role of coronary artery bypass surgery after (Walker et al.), 826
- Intraluminal disease on arteriography, progression of coronary artery disease in patients with chest pain and normal or (Haft and Bachik), 35
- Intraoperative balloon-catheter dilatation in the treatment of coronary artery disease (Jones and King), 836
- University of Florida experience (Faro et al.), 841
- coronary artery balloon-catheter dilatation (Fogarty and Kinney), 845
- detection of changes in LV segmental wall motion by transesophageal two-dimensional echocardiography (Beaupre et al.), 1021 (Brief comm.)
- retrograde balloon-catheter dilatation to augment myocardial revascularization (Ross et al.), 851
- Intrathoracic neoplasms, two-dimensional echocardiography in the detection of noneffusive cardiac involvement by (Cohen, Raible, and Ansinnelli), 532
- Intrauterine fetal death, association with: common origin of right and left coronary arteries from region of left sinus of Valsalva (Muus and McManus), 1285 (Brief comm.)
- Intravenous labetalol in management of severe hypertension and hypertensive emergencies (Cressman et al.), 980
- nitroglycerin, effects of on ventricular ectopic beats in acute myocardial infarction (Bussmann, Neumann, and Kaltenbach), 940
- verapamil in patients on chronic propranolol therapy, hemodynamic effects of (Reddy, Uretsky, and Steinfeld), 97
- Introduction to Symposium on New Techniques in Therapeutic Coronary Catheterization including Angioplasty (Roberts, Conti, and Pepine), 817
- Irradiation, laser, effects of on cardiac valves: transcatheter in vivo vaporization of aortic valve (Lee et al.), 394 (Brief comm.)
- Ischemia-induced conduction delay and ventricular arrhythmias, relationship between in closed-chest animals within 24 hours of myocardial infarction (Fujimoto et al.), 201
- myocardial, a marker for: R wave amplitude responses to rapid atrial pacing (David et al.), 53
- ear pain due to (Bryhn and Hindfelt), 186 (Letter)
- increased, during supine compared to erect exercise demonstrated by thallium-201 myocardial perfusion imaging (Kelly et al.), 1263 (Brief comm.)
- painless, sudden severe, the syndrome of (Raper, Hastillo, and Paulsen), 813
- resting, effects of assessed by thallium scintigraphy on QRS scoring system for estimating left ventricular function quantified by radionuclide angiography in acute myocardial infarction patients (DePace, Hakki, and Iskandrian), 1210
- septal, systolic compression of septal coronary arteries with by thallium-201 scintigraphy (Ugarte et al.), 1039 (Brief comm.)
- Ischemic heart disease, chronic stable, efficacy of amiodarone during long-term treatment of potentially dangerous ventricular arrhythmias in patients with (Kaski et al.), 648
- symptomatic, effect of dobutamine on exercise performance in patients with (Rabinovitch et al.), 81
- left ventricular myocardium, hemodynamics and function of normal and: effects of verapamil in patients with acute myocardial infarction (Heikkilä and Nieminen), 241
- myopathic, and rheumatic heart diseases as cardiac transplant recipients, comparison of patients with (Lanza et al.), 8
- wall dysfunction, detection of: comparison between M-mode echocardiography and sonomicrometry (Guth et al.), 449
- zones, decreased systolic wall thickening in myocardium adjacent to in conscious swine during brief coronary artery occlusion (Guth et al.), 458
- Isovolumic relaxation in normal and diseased hearts, clinical characteristics of left ventricular pressure decline during (Katayama et al.), 332

Junctional rhythms, accelerated, during oral verapamil therapy (Schwartz et al.), 440

K

- Kawasaki's disease and coronary arteriovenous fistulas, evaluation in systematic visualization of coronary arteries by two-dimensional echocardiography in children and infants (Satomi et al.), 497
- left ventricular wall motion abnormalities in (Grenadier et al.), 966
- Kent bundles, left-sided, shortening of ventriculoatrial conduction in patients with (Cinca et al.), 912

L

- Labetalol, intravenous, in management of severe hypertension and hypertensive emergencies (Cressman et al.), 980
- Laser-heated metal cautery cap, fiberoptic, dissolution of human atherosclerotic disease by (Lee et al.), 777 (Brief comm.)
- irradiation on cardiac valves, effects of: transcatheter in vivo vaporization of aortic valve (Lee et al.), 394 (Brief comm.)
- Late coronary artery reperfusion after myocardial necrosis is complete, effects of (Geft et al.), 623
- Leads, pacing, ventricular endocardial, characterization of chronically implanted (Angello, McNulty, and Dobbs), 1142
- Leaflets, flail, due to degeneration and calcification, echocardiography of porcine aortic prosthesis with (Bansal, Morrison, and Jacobson), 591 (Brief comm.)
- Left and right ventricular performance and quantitative thallium-201 scintigraphy following acute myocardial infarction, sequential radionuclide angiographic assessment of (Hirsovitze et al.), 934
- atrial to right pulmonary artery communication: recognition and surgical correction (Sheikhzadeh et al.), 396 (Brief comm.)
- volume change, relationship of the interatrial septal echocardiogram to in the normal and diseased heart (Chung-Sheng, Hon-Yuan, and Yih), 519
- phrenic nerve paralysis, tricuspid regurgitation-like murmur due to mitral regurgitation with (Hirota et al.), 181 (Brief comm.)
- pulmonary artery branch stenosis, peripheral, scimitar syndrome with (Platia and Brinker), 594 (Brief comm.)
- ventricle, diastolic prolapse of intimal flap into: unusual echographic findings in aortic dissection (Come et al.), 790 (Brief comm.)
- transseptal balloon catheterization of the in adult valvular heart disease (Lam, Juska, and Pietras), 147
- ventricular and right ventricular ejection fraction in pediatric patients with normal hearts: first-pass radionuclide angiography (Hurwitz, Treves, and Kuruc), 726
- failure following acute myocardial infarction, hemodynamic trial of sequential treatment with diuretic, vasodilator, and positive inotropic drugs in (Nelson et al.), 1202
- function and ventricular arrhythmias, effects of acetyl-strophanthidin on (Podrid et al.), 882
- during therapy of unstable angina pectoris, alterations in: relationship to clinical outcome (Narahara et al.), 261
- in patients with chronic hypophosphatemia (Vered et al.), 796 (Brief comm.)
- quantified by radionuclide angiography in acute myocardial infarction patients, effects of resting ischemia assessed by thallium scintigraphy on QRS scoring system for estimating (DePace, Hakki, and Iskandrian), 1210
- mechanics, transient changes in during attacks of Prinzmetal's angina: an M-mode echocardiographic study (Distante et al.), 465
- myocardium, ischemic, hemodynamics and function of normal and: effects of verapamil in patients with acute myocardial infarction (Heikkilä and Nieminen), 241
- performance, evaluation of by radionuclide ventriculography in patients with atrioventricular versus ventricular demand pacemakers (Nitsch et al.), 906
- pressure decline during isovolumic relaxation in normal and diseased hearts, clinical characteristics of (Katayama et al.), 332

## Left ventricular—continued

- segmental wall motion, intraoperative detection of changes in by transesophageal two-dimensional echocardiography (Beaupre et al.), 1021 (Brief comm.)
- volume and R wave amplitude induced by rapid atrial pacing, correlation between changes in (Daniels et al.), 711
- wall motion abnormalities in Kawasaki's disease (Grenadier et al.), 966
- Lenox Hill experience, review of in adjunctive operative coronary artery balloon-catheter dilatation (Wallsh et al.), 856
- Lidocaine analogs—tocainide and mexiletine—molecular basis for antigenicity of (Duff et al.), 585 (Brief comm.)
- comparative study with: electrophysiologic and hemodynamic effects of propafenone, a new antiarrhythmic agent, on the anesthetized, closed-chest dog (Karagueuzian et al.), 418
- overdose, accidental, sinus standstill following (Antonelli, Ben-Ami, and Weiss), 1042 (Brief comm.)
- resistant ventricular tachycardia, mexiletine in (Abinader), 808 (Letter)
- Reply (Santinelli, Chiariello, and Condorelli), 808
- Lipids, serum, as indicators of occult coronary artery disease assessed by angiography (Ramsdale et al.), 811
- Long-term clinical experience with mexiletine (Johansson, Stavenow, and Hanson), 1099
- mexiletine for ventricular arrhythmias (Stein et al.), 1091
- wavelength cardiopulmonary oscillations, implications of: nonlinear dynamics in heart failure (Goldberger et al.), 612

## M

- Magnetic resonance imaging, nuclear, ECG-gated: appearance of the congenitally malformed heart (Jacobstein et al.), 1014
- Main pulmonary artery and ascending aorta of normal subjects by Doppler echocardiography, evaluation of blood flow velocity in the (Gardin et al.), 310
- Malfunctioning aortic prosthesis, early prosthetic mitral closure due to during intra-aortic balloon counterpulsation (Gheorghiade et al.), 388 (Brief comm.)
- Masses, atrial, right, clinical and echocardiographic features of (Panidis et al.), 745
- Mechanical alternans, Doppler echocardiographic features of (Schuster and Nanda), 580 (Brief comm.)
- prosthetic valves, anticoagulants during pregnancy for (Danel and Cooper), 607 (Letter)
- Reply (Tamari), 607
- Mediastinal tumor causing continuous murmur (Cooke, Wolk, and Cheitlin), 1282 (Brief comm.)
- Medical therapy, clinical trials and their effect on: The Multiple Risk Factor Intervention Trial (Moser), 616
- Membranous subaortic stenosis, discrete: ECG and vectorcardiographic findings (Bliden et al.), 1293 (Brief comm.)
- Meobentine sulfate, antiarrhythmic actions of (Zimmerman et al.), 1117
- Metastasis, tumor, coronary artery, fatal (Lasky), 785 (Brief comm.)
- Metastatic cardiac tumors in pediatric patients, two-dimensional echocardiography for evaluation of (Grenadier et al.), 122
- Metoprolol, intravenous, electrophysiologic effects of (Marchlinski et al.), 1125
- Mexiletine and tocainide—lidocaine analogs: molecular basis for antigenicity of (Duff et al.), 585 (Brief comm.)
- for treatment of torsade de pointes (Shah and Schwartz), 589 (Brief comm.)
- hemodynamic effects of (Shanks), 1065
- in lidocaine-resistant ventricular tachycardia (Abinader), 808 (Letter)
- Reply (Santinelli, Chiariello, and Condorelli), 808
- long-term clinical experience with (Johansson, Stavenow, and Hanson), 1099
- for ventricular arrhythmias (Stein et al.), 1091

## Mexiletine—continued

- oral, in treatment of refractory ventricular arrhythmias: role of electrophysiologic techniques (Schoenfeld et al.), 1071
- pharmacology, electrophysiology, and pharmacokinetics of (Woosley et al.), 1058
- practical considerations in treatment of ventricular arrhythmias with (Akhtar), 1086
- with other cardiovascular drugs, interaction of (Bigger), 1079
- Mitral annular calcification: clinical, pathophysiology, and echocardiographic review (Nestico et al.), 989
- closure, prosthetic, early, due to malfunctioning aortic prosthesis during intra-aortic balloon counterpulsation (Gheorghiade et al.), 388 (Brief comm.)
- prosthesis dehiscence, porcine, echocardiographic diagnosis of. A new finding (Slavich, Pinamonti, and De Piccoli), 172 (Brief comm.)
- regurgitation, noninvasive assessment of pulmonary capillary wedge pressure in (Gamble, Salerni, and Shaver), 950
- with left phrenic nerve paralysis, tricuspid regurgitation-like murmur due to (Hirota et al.), 181 (Brief comm.)
- stenosis, rheumatoid, requiring valve replacement (Bortolotti et al.), 1049 (Brief comm.)
- valve, congenital disorders of the, two-dimensional echo Doppler study of (Grenadier et al.), 319
- prolapse, primary, sudden death in (Pocock et al.), 378 (Brief comm.)
- M-mode and two-dimensional echocardiographic findings in pulmonary valve endocarditis (Berger et al.), 391 (Brief comm.)
- echocardiographic study of transient changes in left ventricular mechanics during attacks of Prinzmetal's angina (Distante et al.), 465
- echocardiography and sonomicrometry, comparison between in detection of ischemic wall dysfunction (Guth et al.), 449
- subcostal, of right atrial wall for differentiation of supra-ventricular tachyarrhythmias with aberration from ventricular tachycardia (Drinković), 326
- Molecular basis for antigenicity of lidocaine analogs: tocainide and mexiletine (Duff et al.), 585 (Brief comm.)
- Monitoring, Holter, and provocative maneuvers in assessment of unipolar demand pacemaker myopotential inhibition (Gaita et al.), 925
- Multiple Risk Factor Intervention Trial, the: clinical trials and their effect on medical therapy (Moser), 616
- Murmur, continuous, mediastinal tumor causing (Cooke, Wolk, and Cheitlin), 1282 (Brief comm.)
- tricuspid regurgitation-like, due to mitral regurgitation with left phrenic nerve paralysis (Hirota et al.), 181 (Brief comm.)
- Myocardial blood flow and infarct salvage during coronary artery occlusion in dogs, effect of whole-body hypothermia on (Voorhees, Abendschein, and Tacker), 945
- and segmental shortening, variable effects of intracoronary nitroglycerin on according to dose and degree of coronary occlusion (Weintraub et al.), 707
- cells, cyclic AMP and phosphorylation in regulation of Ca<sup>++</sup> influx into and blockade by calcium antagonistic drugs (Sperelakis), 347
- clearance, quantitative analysis of serial thallium-201 imaging after dipyridamole for coronary disease detection using (Okada et al.), 475
- contrast appearance time to measure coronary flow reserve, use of: application of digital techniques to selective coronary arteriography (Vogel et al.), 153
- damage, assessment of in patients with acute myocardial infarction by serial measurement of serum alpha-hydroxybutyrate dehydrogenase levels (van der Laarse et al.), 248
- function and performance, ejection phase indices of, relationship between during development of pressure overload hypertrophy (Hoffman and Covell), 738
- infarction, acute, and angina pectoris, fibrinopeptide A and beta thromboglobulin in patients with (van Hulsteijn et al.), 39
- assessment of myocardial damage in patients with by serial measurement of serum alpha-hydroxybutyrate dehydrogenase levels (van der Laarse et al.), 248

**Myocardial infarction, acute—continued**

- effects of intravenous nitroglycerin on ventricular ectopic beats in (Bussmann, Neumann, and Kaltenbach), 940
- effects of verapamil in patients with: hemodynamics and function of normal and ischemic left ventricular myocardium (Heikkilä and Nieminen), 241
- evolving, intracoronary streptokinase in (Feldman et al.), 823
- hemodynamic trial of sequential treatment with diuretic, vasodilator, and positive inotropic drugs in left ventricular failure following (Nelson et al.), 1202
- inferior, anterolateral ST segment depression in: angiographic and clinical implications (Roubin et al.), 1177
- wall, right ventricular involvement with identifies high risk of developing atrioventricular nodal conduction disturbances (Braat et al.), 1183
- myoglobinemia in (Antonelli and Barzilay), 609 (Letter)
- Reply (Drexel et al.), 609
- patient(s), effects of resting ischemia assessed by thallium scintigraphy on QRS scoring system for estimating LV function quantified by radionuclide angiography in (DePace, Hakki, and Iskandrian), 1210
- the high-risk, at 1-year follow-up: identification at hospital discharge by ambulatory electrocardiography and radionuclide ventriculography (Olson et al.), 358
- percutaneous transluminal coronary angioplasty in (Pepine et al.), 820
- prenalator in cardiogenic shock following (Coma-Canella, Lopez-Sendon, and Jadraque), 1195
- prevention of myocardial reinfarction and of sudden death in survivors of: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189
- refractory ventricular tachycardia complicating recovery from: treatment with map-guided infarctectomy (Garan et al.), 571
- sequential radionuclide angiographic assessment of left and right ventricular performance and quantitative thallium-201 scintigraphy following (Hirsowitz et al.), 934
- short-term prognosis in: evaluation of different prediction methods (Madsen, Gilpin, and Henning), 1241
- torsade de pointes complicating (Griffin and Most), 169 (Brief comm.)
- transmural and nontransmural, comparison of the influence of on ventricular function (Nicod et al.), 28
- associated, prognosis after sudden cardiac death without: One year follow-up of empiric therapy with amiodarone (Peter et al.), 209
- relationship between ventricular arrhythmias and ischemia-induced conduction delay in closed-chest animals within 24 hours of (Fujimoto et al.), 201
- right ventricular, with ventricular septal rupture (Kereiakes et al.), 1257 (Brief comm.)
- role of coronary artery bypass surgery after intracoronary streptokinase infusion for (Walker et al.), 826
- with normal coronary arteries complicated by ventricular septal rupture (St. Louis et al.), 1259 (Brief comm.)
- inflammation, mild, presenting as congestive cardiomyopathy responsive to immunosuppression (Shanes et al.), 798 (Brief comm.)
- ischemia, a marker for: R wave amplitude responses to rapid atrial pacing (David et al.), 53
- and reperfusion, effects of acebutolol, atenolol, and d-propranolol on isolated working rat hearts subject to: role of beta-adrenoceptor antagonism in the prevention of reperfusion ventricular arrhythmias (Rochette et al.), 1132
- ear pain due to (Bryhn and Hindfelt), 186 (Letter)
- increased, during supine compared to erect exercise demonstrated by thallium-201 myocardial perfusion imaging (Kelly et al.), 1263 (Brief comm.)
- painless, sudden severe, the syndrome of (Raper, Hastillo, and Paulsen), 813
- necrosis is complete, effects of late coronary artery reperfusion after (Geft et al.), 623
- perfusion imaging, thallium-201, increased myocardial ischemia during supine compared to erect exercise demonstrated by (Kelly et al.), 1263 (Brief comm.)

**Myocardial perfusion—continued**

- regional, measured by the avalanche radiation probe during cardiopulmonary bypass: pharmacologic and physiologic alterations (Karlberg et al.), 367
- reinfarction and of sudden death, prevention of in survivors of acute myocardial infarction: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189
- revascularization, intraoperative retrograde balloon-catheter dilatation to augment (Ross et al.), 851
- Myocarditis, chagasic, chronic, efficacy of amiodarone during long-term treatment of malignant ventricular arrhythmias in patients with (Chiale et al.), 656
- in two families with dilated cardiomyopathy, clinical and pathologic findings of (O'Connell et al.), 127
- Myocardium adjacent to ischemic zones, decreased systolic wall thickening in in conscious swine during brief coronary artery occlusion (Guth et al.), 458
- ischemic left ventricular, hemodynamics and function of normal and: effects of verapamil in patients with acute myocardial infarction (Heikkilä and Nieminen), 241
- stunned, reperfusion-salvaged, response of to inotropic stimulation (Ellis et al.), 13
- Myoglobinemia in acute myocardial infarction (Antonelli and Barzilay), 609 (Letter)
- Reply (Drexel et al.), 609
- Myopathic, ischemic, and rheumatic heart diseases as cardiac transplant recipients, comparison of patients with (Lanza et al.), 8
- Myopotential inhibition, unipolar demand pacemaker, Holter monitoring and provocative maneuvers in assessment of (Gaita et al.), 925
- Myxomas, multiple, recurrent (Hada et al.), 1280 (Brief comm.)

**N**

- Nafazatrom (BAYg6575), beneficial effects of on experimental coronary thrombosis (Shea et al.), 629
- Necrosis, myocardial, is complete, effects of late coronary artery reperfusion after (Geft et al.), 623
- Neoplasms, intrathoracic, two-dimensional echocardiography in the detection of noneffusive cardiac involvement by (Cohen, Raible, and Ansini), 532
- Nerve paralysis, left phrenic, tricuspid regurgitation-like murmur due to mitral regurgitation with (Hirota et al.), 181 (Brief comm.)
- Nifedipine effects on renin-angiotensin-aldosterone system (Monteiro et al.), 809 (Letter)
- Reply (Yamada and Hiramatsu), 809
- on serum digoxin concentrations in patients, effect of (Schwartz, Raizner, and Akers), 669
- Nitroglycerin, intracoronary, ergonovine-induced coronary spasm refractory to but responsive to nitroprusside (Hastey, Erwin, and Ramanathan), 778 (Brief comm.)
- variable effects of on myocardial blood flow and segmental shortening according to dose and degree of coronary occlusion (Weintraub et al.), 707
- intravenous, effects of on ventricular ectopic beats in acute myocardial infarction (Bussmann, Neumann, and Kaltenbach), 940
- response to: radionuclide analysis of forearm venous pressure-volume relationship (Dittrich and Slutsky), 733
- Nitroprusside, ergonovine-induced coronary spasm refractory to intracoronary nitroglycerin but responsive to (Hastey, Erwin, and Ramanathan), 778 (Brief comm.)
- Nodal conduction disturbances, atrioventricular, right ventricular involvement with acute inferior wall myocardial infarction identifies high risk of developing (Braat et al.), 1183
- Nonexercise-dependent screening test for coronary disease: thallium scintigraphy during dobutamine infusion (Mason et al.), 481
- Noninvasive assessment of pulmonary capillary wedge pressure in mitral regurgitation (Gamble, Salerni, and Shaver), 950
- evaluation of severity of aortic stenosis in adult patients (Nakamura et al.), 959

## Noninvasive—continued

- pulsed Doppler and Fick measurements of stroke volume in cardiac patients, comparison of (Loeppky et al.), 339
- Nonlinear dynamics, electrical alternans, and pericardial tamponade (Goldberger et al.), 1297
  - in heart failure: implications of long-wavelength cardiopulmonary oscillations (Goldberger et al.), 612
- Nontransmural and transmural myocardial infarction, acute, on ventricular function, comparison of the influence of (Nicod et al.), 28
- Notching of the aortic valve (echographic early systolic partial closure) in congestive cardiomyopathy (Gardin, Tommaso, and Talano), 135
- Nuclear magnetic resonance imaging, ECG-gated: appearance of the congenitally malformed heart (Jacobstein et al.), 1014
- Numerical approach to classification of angina (Wartak, Fenna, and Callaghan), 402

## O

- Occlusion, coronary, acute, during balloon angioplasty due to intracoronary thrombus and coronary spasm: a reversible complication (Ischinger, Zack, and Aker), 1271 (Brief comm.)
  - artery, brief, decreased systolic wall thickening in myocardium adjacent to ischemic zones in conscious swine during (Guth et al.), 458
  - in dogs, effect of whole-body hypothermia on myocardial blood flow and infarct salvage during (Voorhees, Abendschein, and Tacker), 945
  - variable effects of intracoronary nitroglycerin on myocardial blood flow and segmental shortening according to dose and degree of (Weintraub et al.), 707
- Operative coronary artery balloon-catheter dilatation, adjunctive: review of Lenox Hill experience (Wallsh et al.), 856
  - transluminal balloon-catheter dilatation of the coronary arteries, experience with (Mills and Doyle), 838
- Oral contraceptive users from a community survey, plasma renin substrate, renin activity, and aldosterone levels in a sample of (Goldhaber et al.), 119
- mexiletine in treatment of refractory ventricular arrhythmias: role of electrophysiologic technique (Schoenfeld et al.), 1071
- Orthostatic hypotension due to prolactin-secreting pituitary adenoma (Ducloux et al.), 187 (Letter)
- Oscillations, cardiopulmonary, long-wavelength, implications of: nonlinear dynamics in heart failure (Goldberger et al.), 612
- Overriding and straddling atrioventricular valves associated with complex congenital heart disease, two-dimensional echocardiographic evaluation of (Barron et al.), 1006

## P

- P wave changes in intracerebral hemorrhage: clinical, echocardiographic, and CT scan correlation (Stolar et al.), 784 (Brief comm.)
- Pacemaker(s), atrial, implanted, stability of AV conduction in sick sinus node syndrome patients with (Hayes and Furman), 644
  - atrioventricular versus ventricular demand, evaluation of left ventricular performance by radionuclide ventriculography in patients with (Nitsch et al.), 906
  - myopotential inhibition, unipolar demand, Holter monitoring and provocative maneuvers in assessment of (Gaita et al.), 925
  - wire perforation, epicardial, two-dimensional echocardiographic identification of (Chazal and Feigenbaum), 165 (Brief comm.)
- Pacing, atrial, rapid, correlation between changes in R wave amplitude and left ventricular volume induced by (Daniels et al.), 711
  - R wave amplitude responses to: a marker for myocardial ischemia (David et al.), 53

## Pacing—continued

- catheter, atrial, new temporary, clinical evaluation of a: results in 100 patients (Littleford et al.), 237
- induced angina pectoris, sequential changes in regional coronary flow during: coronary flow limitation precedes angina (Wilson et al.), 269
  - spontaneous versus: thromboxane release in coronary artery disease (Mehta et al.), 286
- leads, ventricular endocardial, characterization of chronically implanted (Angello, McNulty, and Dobbs), 1142
- termination of ventricular tachycardia: influence of antiarrhythmic-slowed ectopic rate (Keren, Miura, and Somberg), 638
- Pain, chest, and normal or intraluminal disease on arteriography, progression of coronary artery disease in patients with (Haft and Bachik), 35
  - significance of during percutaneous transluminal coronary angioplasty (Aueron, Gruentzig, and Meier), 578 (Brief comm.)
- Painless myocardial ischemia, sudden severe, the syndrome of (Raper, Hastillo, and Paulsen), 813
- Paradoxical embolism, contrast echocardiographic documentation of (Rodgers, Singh, and Meister), 1270 (Brief comm.)
  - diagnosis of with contrast echocardiography (Higgins, Strunk, and Schiller), 375 (Brief comm.)
- Paralysis, left phrenic nerve, tricuspid regurgitation-like murmur due to mitral regurgitation with (Hirota et al.), 181 (Brief comm.)
- Pediatric patients, two-dimensional echocardiography for evaluation of metastatic cardiac tumors in (Grenadier et al.), 122
  - with normal hearts, right ventricular and left ventricular ejection fraction in: first-pass radionuclide angiography (Hurwitz, Treves, and Kuruc), 726
- Percutaneous transluminal coronary angioplasty and coronary artery bypass surgery including surgery for failed angioplasty, comparison of (Jones, Murphy, and Craver), 830
  - in acute myocardial infarction (Pepine et al.), 820
  - significance of chest pain during (Aueron, Gruentzig, and Meier), 578 (Brief comm.)
  - 6 years' experience (Gruentzig), 818
- Perfusion imaging, myocardial, thallium-201, increased myocardial ischemia during supine compared to erect exercise demonstrated by (Kelly et al.), 1263 (Brief comm.)
  - myocardial, regional, measured by the avalanche radiation probe during cardiopulmonary bypass: pharmacologic and physiologic alterations (Karlsberg et al.), 367
- Pericardial defect, congenital partial, fatal cardiac strangulation by (Jones and McManus), 183 (Brief comm.)
  - disease, atrial fibrillation in (Spodick), 809 (Letter)
  - Reply (Goldberger and John Mancini), 810
- effusion, tuberculous, echocardiographic abnormalities in (Chia et al.), 1032 (Brief comm.)
- tamponade, nonlinear dynamics, and electrical alternans (Goldberger et al.), 1297
- thymoma, visualization of and evaluation of chemotherapy by two-dimensional echocardiography (Ileceto et al.), 605 (Brief comm.)
- Pericardiocentesis, acute right ventricular dilation and echocardiographic volume overload following for relief of cardiac tamponade (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)
- Pericarditis, constrictive, associated with sarcoidosis (Garrett, O'Neill, and Blake), 394 (Brief comm.)
  - eosinophilic (Virmani et al.), 803 (Brief comm.)
- PGA<sub>1</sub>, PGF<sub>2α</sub>, thromboxane B<sub>2</sub>, 6-keto-PGF<sub>1α</sub>, and PGE<sub>2</sub> plasma levels in arteriosclerosis obliterans: relationship to clinical manifestation, risk factors, and arterial pathoanatomy (Jouve et al.), 45
- PGE<sub>2</sub>, thromboxane B<sub>2</sub>, 6-keto-PGF<sub>1α</sub>, PGF<sub>2α</sub>, and PGA<sub>1</sub> plasma levels in arteriosclerosis obliterans: relationship to clinical manifestations, risk factors, and arterial pathoanatomy (Jouve et al.), 45
- PGF<sub>2α</sub>, thromboxane B<sub>2</sub>, 6-keto-PGF<sub>1α</sub>, PGE<sub>2</sub>, and PGA<sub>1</sub> plasma levels in arteriosclerosis obliterans: relationship to clinical manifestations, risk factors, and arterial pathoanatomy (Jouve et al.), 45

- Pharmacokinetics, pharmacology, and electrophysiology of mexiletine (Woosley et al.), 1058
- Pharmacology, electrophysiology, and pharmacokinetics of mexiletine (Woosley et al.), 1058
- Phonoechocardiography in tricuspid honks (Chia et al.), 1032 (Brief comm.)
- Phosphorylation and cyclic AMP in regulation of  $Ca^{++}$  influx into myocardial cells and blockade by calcium antagonistic drugs (Sperelakis), 347
- Phrenic nerve paralysis, left, tricuspid regurgitation-like murmur due to mitral regurgitation with (Hirota et al.), 181 (Brief comm.)
- Pituitary adenoma, prolactin-secreting, orthostatic hypotension due to (Ducloux et al.), 187 (Letter)
- Placebo, diltiazem, and propranolol, comparative effects of on exercise performance using radionuclide ventriculography in patients with symptomatic, coronary artery disease: results of a double-blind, randomized crossover study (Anderson et al.), 698
- Plasma levels,  $PGA_{11}$ , thromboxane  $B_2$ , 6-keto- $PGF_{1\alpha}$ ,  $PGE_2$ , and  $PGF_{2\alpha}$  in arteriosclerosis obliterans: relationship to clinical manifestation, risk factors, and arterial pathoanatomy (Jouve et al.), 45
- renin substrate, renin activity, and aldosterone levels in a sample of oral contraceptive users from a community survey (Goldhaber et al.), 119
- Platelet antagonists in coronary artery disease, role of: implications in coronary artery bypass surgery and balloon-catheter dilatation (Mehta), 859
- Porcine aortic prosthesis with flail leaflets due to degeneration and calcification, echocardiography of (Bansal, Morrison, and Jacobson), 591 (Brief comm.)
- mitral prosthesis dehiscence, echocardiographic diagnosis of. A new finding (Slavich, Pinamonti, and De Piccoli), 172
- valve malfunction, multiple systolic clicks and echographic coarse systolic fluttering with (Szkopiec et al.), 794 (Brief comm.)
- Postmyocardial infarction patients, errors in predicting functional capacity for using a modified Bruce protocol (Sullivan and McKirnan), 486
- in a pilot program, experience with 284: effect of early prehospital transtelephonic coronary intervention on morbidity and mortality (Capone et al.), 1153
- Potassium and sodium intake in essential hypertension, assessing (Gillum, Prineas, and Elmer), 549
- PR interval shorter than the RP interval, observations in patients with supraventricular tachycardia having a differentiation between atrial tachycardia and reciprocating atrioventricular tachycardia using an accessory pathway with long conduction times (Brugada et al.), 556
- Preexcitation and familial hypertrophic cardiomyopathy (Hauser, Gordon, and Timmis), 176 (Brief comm.)
- Pregnancy, anticoagulants during for mechanical prosthetic valves (Danel and Cooper), 607 (Letter)
- Reply (Tamari), 607
- Prehospital cardiac arrest, abnormal quinidine binding in survivors of (Kessler et al.), 665
- transtelephonic coronary intervention on morbidity and mortality, effect of early: experience with 284 postmyocardial infarction patients in a pilot program (Capone et al.), 1153
- Premature beats, ventricular, repetitive, replacement of amiodarone by sotalol for (Burckhardt, White, and Hoffmann), 167 (Brief comm.)
- pulmonic valve opening, echographic: sign of reduced right ventricular distensibility (Benito et al.), 1029 (Brief comm.)
- Prenalator in cardiogenic shock following acute myocardial infarction (Coma-Canella, Lopez-Sendon, and Jadraque), 1195
- Preoperative prediction of prosthetic aortic valve size, two-dimensional echocardiographic (Cohen et al.), 108
- Pressor and depressor responses after cholinergic blockade in humans (Goldstein and Keiser), 974
- test, cold, during two-dimensional echocardiography: usefulness in detection of patients with coronary disease (Gondi and Nanda), 278
- Pressure, balloon dilatation, higher, in coronary angioplasty (Meier et al.), 619
- Pressure—continued
- decline, left ventricular, during isovolumic relaxation in normal and diseased hearts, clinical characteristics of (Katayama et al.), 332
- overload hypertrophy, relationship between ejection phase indices of performance and myocardial functions during development of (Hoffman and Covell), 738
- pulmonary capillary wedge, in mitral regurgitation, noninvasive assessment of (Gamble, Salerni, and Shaver), 950
- volume relationship, forearm venous, radionuclide analysis of: response to nitroglycerin (Dittrich and Slutsky), 733
- Primary mitral valve prolapse, sudden death in (Pocock et al.), 378 (Brief comm.)
- Prinzmetal's angina, transient changes in left ventricular mechanics during attacks of: an M-mode echocardiographic study (Distant et al.), 465
- Proarrhythmic effects of the new antiarrhythmic agent flecainide acetate (Nathan et al.), 222
- Probulol, prolongation of QT interval induced by: demonstration of a method for determining QT interval change induced by a drug (Browne et al.), 680
- Programmed atrial stimulation in children, induction of nonsustained atrial flutter by: incidence, mechanisms, and clinical implications (Casta et al.), 444
- ventricular stimulation in patients without spontaneous ventricular tachycardia (Morady et al.), 875
- Prolactin-secreting pituitary adenoma, orthostatic hypotension due to (Ducloux et al.), 187 (Letter)
- Prolapse, diastolic, of intimal flap into left ventricle: unusual echographic findings in aortic dissection (Come et al.), 790 (Brief comm.)
- valve, primary mitral, sudden death in (Pocock et al.), 378 (Brief comm.)
- Prolonged elimination of amiodarone following cessation of chronic therapy (Wilkinson et al.), 787 (Brief comm.)
- Propafenone, a new antiarrhythmic agent, electrophysiologic and hemodynamic effects of on the anesthetized, closed-chest dog: comparative study with lidocaine (Karagueuzian et al.), 418
- Propranolol, diltiazem, and placebo, comparative effects of on exercise performance using radionuclide ventriculography in patients with symptomatic, coronary artery disease: results of a double-blind, randomized crossover study (Anderson et al.), 698
- therapy, chronic, hemodynamic effects of intravenous verapamil in patients on (Reddy, Uretsky, and Steinfeld), 97
- Prosthesis, aortic, malfunctioning, early prosthetic mitral closure due to during intra-aortic balloon counterpulsation (Gheorghiadu et al.), 388 (Brief comm.)
- porcine, with flail leaflets due to degeneration and calcification, echocardiography of (Bansal, Morrison, and Jacobson), 591 (Brief comm.)
- dehiscence, mitral, porcine, echocardiographic diagnosis of. A new finding (Slavich, Pinamonti, and De Piccoli), 172 (Brief comm.)
- Prosthetic aortic valve size, two-dimensional echocardiographic preoperative prediction of (Cohen et al.), 108
- mitral closure, early, due to malfunctioning aortic prosthesis during intra-aortic balloon counterpulsation (Gheorghiadu et al.), 388 (Brief comm.)
- valves, mechanical, anticoagulants during pregnancy for (Danel and Cooper), 607 (Letter)
- Reply (Tamari), 607
- Provocative maneuvers and Holter monitoring in assessment of unipolar demand pacemaker myopotential inhibition (Gaita et al.), 925
- Pulmonary artery branch stenosis, left, peripheral, scimitar syndrome with (Platia and Brinker), 594 (Brief comm.)
- main, and ascending aorta of normal subjects by Doppler echocardiography, evaluation of blood flow velocity in the (Gardin et al.), 310
- right, to left atrial communication: recognition and surgical correction (Sheikhzadeh et al.), 396 (Brief comm.)
- capillary wedge pressure in mitral regurgitation, noninvasive assessment of (Gamble, Salerni, and Shaver), 950

## Pulmonary—continued

- cysts, multiple, with angina pectoris, coronary-to-bronchial artery anastomosis and (Saito et al.), 1037 (Brief comm.)
- embolism, surgical removal of right atrial thromboembolus detected by two-dimensional echocardiography in (Nestic et al.), 1278 (Brief comm.)
- hypertension, isolated endocardial fibroelastosis of the right ventricle associated with (Larson et al.), 1286 (Brief comm.)
- Pulmonic regurgitation by contrast echocardiography, diagnosis of (Meltzer et al.), 102
- valve endocarditis, M-mode and two-dimensional echocardiographic findings in (Berger et al.), 391 (Brief comm.)
- opening, premature, echographic: sign of reduced right ventricular distensibility (Benito et al.), 1029 (Brief comm.)
- ruptured, with infective endocarditis, two-dimensional echocardiography of (Suwa et al.), 1027 (Brief comm.)
- Purpura, Henoch-Schönlein, endomyocardial biopsy in (Keraiakes, Ports, and Finkbeiner), 382 (Brief comm.)

## Q

- QRS scoring system for estimating LV function quantified by radionuclide angiography in acute myocardial infarction patients, effects of resting ischemia assessed by thallium scintigraphy on (DePace, Hakki, and Iskandrian), 1210
- QT interval and arrhythmias in athletes (Palatini and Sperti), 608 (Letter)
- Reply (Pantano), 608
- change induced by a drug, demonstration of a method for determining: prolongation of QT interval by probucol (Browne et al.), 680
- prolongation and notched T waves, sudden death in an asymptomatic young man with (Karjalainen and Heikkilä), 1040 (Brief comm.)
- of, induced by probucol: demonstration of a method for determining QT interval change induced by a drug (Browne et al.), 680
- Quinidine and other agents on digitalis glycosides, update on the influence of (Bussey), 143
- binding, abnormal, in survivors of prehospital cardiac arrest (Kessler et al.), 665
- rifampin interaction (Schwartz and Brown), 789 (Brief comm.)
- torsade de pointes due to: observations in 31 patients (Bauman et al.), 425

## R

- R wave amplitude and left ventricular volume induced by rapid atrial pacing, correlation between changes in (Daniels et al.), 711
- changes, exercise-induced, in coronary patients and normal subjects, influence of heart rate on (de Caprio et al.), 61
- responses to rapid atrial pacing: a marker for myocardial ischemia (David et al.), 53
- Radiation-induced valvular heart disease, two-dimensional echocardiographic assessment of (Detrano, Yiannikas, and Salcedo), 584 (Brief comm.)
- probe, avalanche, regional myocardial perfusion measured by the during cardiopulmonary bypass: pharmacologic and physiologic alterations (Karlsberg et al.), 367
- Radionuclide analysis of forearm venous pressure-volume relationship: response to nitroglycerin (Dittrich and Slutsky), 733
- angiocardigraphy, first-pass: right ventricular and left ventricular ejection fraction in pediatric patients with normal hearts (Hurwitz, Treves, and Kuruc), 726
- angiographic assessment, sequential, of left and right ventricular performance and quantitative thallium-201 scintigraphy following acute myocardial infarction (Hirso-witz et al.), 934

## Radionuclide—continued

- angiography, equilibrium, attenuation correction of for noninvasive quantitation of cardiac output and ventricular volumes (Petru et al.), 1221
- in acute myocardial infarction patients, effects of resting ischemia assessed by thallium scintigraphy on QRS scoring system for estimating LV function quantified by (DePace, Hakki, and Iskandrian), 1210
- ventriculography and ambulatory electrocardiography, identification at hospital discharge by of the high-risk acute myocardial infarction patient at 1-year follow-up (Olson et al.), 358
- in patients with atrioventricular versus ventricular demand pacemakers, evaluation of left ventricular performance by (Nitsch et al.), 906
- in patients with symptomatic coronary artery disease, comparative effects of diltiazem, propranolol, and placebo on exercise performance using: results of a double-blind, randomized, crossover study (Anderson et al.), 698
- Receptor, adrenergic, -adenylate cyclase system, defect in during development of catecholamine-induced cardiomyopathy (Corder et al.), 537
- Reciprocating atrioventricular tachycardia and atrial tachycardia, differentiation between using an accessory pathway with long conduction times: observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- Recurrent multiple myxomas (Hada et al.), 1280 (Brief comm.)
- Reentrant tachycardia, atrioventricular nodal, initiation of in patients with discontinuous anterograde atrioventricular nodal conduction curves with and without documented supraventricular tachycardia: observations on role of a discontinuous retrograde conduction curve (Brugada et al.), 685
- Reentry tachycardia, atrioventricular node, verapamil effects in with intermittent supra-Hisian AV block (Hamer et al.), 431
- Refractory ventricular arrhythmias, oral mexiletine in treatment of: role of electrophysiologic techniques (Schoenfeld et al.), 1071
- tachycardia complicating recovery from acute myocardial infarction: treatment with map-guided infarctectomy (Garan et al.), 571
- Regional myocardial perfusion measured by the avalanche radiation probe during cardiopulmonary bypass: pharmacologic and physiologic alterations (Karlsberg et al.), 367
- Regurgitation-like murmur, tricuspid, due to mitral regurgitation with left phrenic nerve paralysis (Hirota et al.), 181 (Brief comm.)
- mitral, noninvasive assessment of pulmonary capillary wedge pressure in (Gamble, Salerni, and Shaver), 950
- with left phrenic nerve paralysis, tricuspid regurgitation-like murmur due to (Hirota et al.), 181 (Brief comm.)
- pulmonic, by contrast echocardiography, diagnosis of (Meltzer et al.), 102
- Reinfarction, myocardial, and of sudden death, prevention of in survivors of acute myocardial infarction: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189
- Renin activity, plasma renin substrate, and aldosterone levels in a sample of oral contraceptive users from a community survey (Goldhaber et al.), 119
- angiotensin-aldosterone system, nifedipine effects on (Monteiro et al.), 809 (Letter)
- Reply (Yamada and Hiramatsu), 809
- substrate, plasma, renin activity, and aldosterone levels in a sample of oral contraceptive users from a community survey (Goldhaber et al.), 119
- Repeat treadmill exercise testing: variability of results in patients with angina pectoris (Starling et al.), 298
- Reperfusion, coronary artery, late, effects of after myocardial necrosis is complete (Geft et al.), 623
- salvaged, stunned myocardium to inotropic stimulation, response of (Ellis et al.), 13
- Repetitive ventricular premature beats, replacement of amiodarone by sotalol for (Burckhardt, White, and Hoffmann), 167 (Brief comm.)

**Repetitive ventricular—continued**

- response, prevalence and clinical significance of the during sinus rhythm in coronary disease patients (Breithardt et al.), 229
- Resonance imaging, magnetic, ECG-gated nuclear: appearance of the congenitally malformed heart (Jacobstein et al.), 1014
- Retrograde accessory pathways, unidirectional, antegrade conduction and AV node function in patients with (Henglein et al.), 411
- balloon-catheter dilatation, intraoperative, to augment myocardial revascularization (Ross et al.), 851
- Revascularization, myocardial, intraoperative retrograde balloon-catheter dilatation to augment (Ross et al.), 851
- Rheumatic, ischemic, and myopathic heart diseases as cardiac transplant recipients, comparison of patients with (Lanza et al.), 8
- Rheumatoid mitral stenosis requiring valve replacement (Bortolotti et al.), 1049 (Brief comm.)
- Rhythms, junctional, accelerated, during oral verapamil therapy (Schwartz et al.), 440
- Rifampin-quinidine interaction (Schwartz and Brown), 789 (Brief comm.)
- Right and left ventricular performance and quantitative thallium-201 scintigraphy following acute myocardial infarction, sequential radionuclide angiographic assessment of (Hirsowitz et al.), 934
- atrial masses, clinical and echocardiographic features of (Panidis et al.), 745
- thromboembolism, surgical removal of, detected by two-dimensional echocardiography in pulmonary embolism (Nestico et al.), 1278 (Brief comm.)
- atrium, rupture of dissecting aortic aneurysm into the: clinical and echocardiographic recognition (Nicod et al.), 1276 (Brief comm.)
- heart endocarditis: clinical and echocardiographic features (Panidis et al.), 759
- pulmonary artery-to-left atrial communication: recognition and surgical correction (Sheikhzadeh et al.), 396 (Brief comm.)
- ventricle, double-chambered, due to fibromuscular diaphragm (Bashour et al.), 792 (Brief comm.)
- isolated endocardial fibroelastosis of the associated with pulmonary hypertension (Larson et al.), 1286 (Brief comm.)
- the essential function of the (Fürey, Zieske, and Levy), 404
- ventricular and left ventricular ejection fraction in pediatric patients with normal hearts: first-pass radionuclide angiography (Hurwitz, Treves, and Kuruc), 726
- dilation, acute, and echocardiographic volume overload following pericarditis for relief of cardiac tamponade (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)
- distensibility, reduced, echographic premature pulmonic valve opening, sign of (Benito et al.), 1029 (Brief comm.)
- electrogram, local, for ECG-gated cardioscintigraphy to assess right ventricular function during biventricular dissociation (Manyari et al.), 385 (Brief comm.)
- free wall, total disconnection of the: physiological consequences in the dog (Jones, Guiraudon, and Klein), 1169
- function, assessment of using two-dimensional echocardiography (Kaul et al.), 526
- during biventricular dissociation, local right ventricular electrogram for ECG-gated cardioscintigraphy to assess (Manyari et al.), 385 (Brief comm.)
- in coronary artery disease as assessed by two-dimensional echocardiography (Panidis et al.), 1187
- infarction: two-dimensional echocardiographic evaluation (Jugdutt et al.), 505
- with ventricular septal rupture (Kereiakes et al.), 1257 (Brief comm.)
- involvement with acute inferior wall myocardial infarction identifies high risk of developing atrioventricular nodal conduction disturbances (Braat et al.), 1183
- Risk factor(s) for men and women in Framingham Heart Study: epidemiology of sudden unexpected death (Schatzkin et al.), 1300

**Risk Factor(s)—continued**

- Intervention Trial, Multiple, the: clinical trials and their effect on medical therapy (Moser), 616
  - RP interval, PR interval shorter than the, observations in patients with supraventricular tachycardia having a: differentiation between atrial tachycardia and reciprocating atrioventricular tachycardia using an accessory pathway with long conduction times (Brugada et al.), 556
  - Rupture of dissecting aortic aneurysm into the right atrium: clinical and echocardiographic recognition (Nicod et al.), 1276 (Brief comm.)
- S**
- Salvage, infarct, and myocardial blood flow during coronary artery occlusion in dogs, effect of whole-body hypothermia on (Voorhees, Abendschein, and Tacker), 945
  - Sarcoidosis, constrictive pericarditis associated with (Garrett, O'Neill, and Blake), 394 (Brief comm.)
  - Scimitar syndrome with peripheral left pulmonary artery branch stenosis (Platia and Brinker), 594 (Brief comm.)
  - vein syndrome: report of nine new cases (Oakley et al.), 596 (Brief comm.)
  - Scintigraphy, thallium, during dobutamine infusion: nonexercise-dependent screening test for coronary disease (Mason et al.), 481
  - effects of resting ischemia on QRS scoring system as assessed by for estimating LV function quantified by radionuclide angiography in acute myocardial infarction patients (DePace, Hakki, and Iskandrian), 1210
  - quantitative, and left and right ventricular performance following acute myocardial infarction, sequential radionuclide angiographic assessment of (Hirsowitz et al.), 934
  - Segmental shortening and myocardial blood flow, variable effects of intracoronary nitroglycerine on according to dose and degree of coronary occlusion (Weintraub et al.), 707
  - wall motion, LV, intraoperative detection of changes in by transesophageal two-dimensional echocardiography (Beaupre et al.), 1021 (Brief comm.)
  - Septal coronary arteries, systolic compression of with septal ischemia by thallium-201 scintigraphy (Ugarte et al.), 1039 (Brief comm.)
  - echocardiogram, interatrial: relationship to left atrial volume change in the normal and diseased heart (Chung-Sheng, Hon-Yuan, and Yih), 519
  - function, interventricular, preservation of in patients having coronary artery bypass grafts without cardiopulmonary bypass (Akins, Boucher, and Pohost), 304
  - ischemia, systolic compression of septal coronary arteries with by thallium-201 scintigraphy (Ugarte et al.), 1039 (Brief comm.)
  - rupture, ventricular, myocardial infarction with normal coronary arteries complicated by (St. Louis et al.), 1259 (Brief comm.)
  - right ventricular myocardial infarction with (Kereiakes et al.), 1257 (Brief comm.)
  - Septostomy, atrial, balloon, transumbilical, for transposition of the great arteries, in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)
  - Sequential changes in regional coronary flow during pacing-induced angina pectoris: coronary flow limitation precedes angina (Wilson et al.), 269
  - radionuclide angiographic assessment of left and right ventricular performance and quantitative thallium-201 scintigraphy following acute myocardial infarction (Hirsowitz et al.), 934
  - Serial thallium-201 imaging after dipyridamole for coronary disease detection: quantitative analysis using myocardial clearance (Okada et al.), 475
  - Serum alpha-hydroxybutyrate dehydrogenase levels, assessment of myocardial damage in patients with acute myocardial infarction by serial measurement of (van der Laarse et al.), 248
  - digoxin concentrations in patients, effect of nifedipine on (Schwartz, Raizner, and Akers), 669

## Serum—continued

- lipids as indicators of occult coronary artery disease assessed by angiography (Ramsdale et al.), 811
- blood pressure, smoking, diabetes, health knowledge, and behavior: cardiovascular risk factors among urban American Indians (Gillum, Gillum, and Smith), 765
- Shock, cardiogenic, following acute myocardial infarction, prenatol in (Coma-Canella, Lopez-Sendon, and Jadraque), 1195
- Sick sinus node syndrome patients with implanted atrial pacemakers, stability of AV conduction in (Hayes and Furman), 644
- Sinus node and atrium, canine, acetylcholine-calcium interactions in the (Loeb and deTarnowsky), 1161
  - or AV node of dogs, no electrical instability after intracoronary streptokinase administered into (Epstein, Urthaler, and James), 902
- of Valsalva aneurysm, unruptured, echocardiographic diagnosis of (Lewis and Agathangelou), 1025 (Brief comm.)
- left, common origin of right and left coronary arteries from region of association with unexpected intrauterine fetal death (Muus and McManus), 1285 (Brief comm.)
- rhythm in coronary disease patients, prevalence and clinical significance of the repetitive ventricular response during (Breithardt et al.), 229
- standstill following accidental lidocaine overdose (Antonelli, Ben-Ami, and Weiss), 1042 (Brief comm.)
- 6-keto-PGF<sub>1α</sub>, thromboxane B<sub>2</sub>, PGE<sub>2</sub>, PGF<sub>2α</sub>, and PGA, plasma levels in arteriosclerosis obliterans: relationship to clinical manifestations, risk factors, and arterial pathoanatomy (Jouve et al.), 45
- Sleep apnea-hypersomnia syndrome: its recognition in clinical cardiology (Burack), 543
- Smoking, blood pressure, serum lipids, diabetes, health knowledge, and behavior: cardiovascular risk factors among urban American Indians (Gillum, Gillum, and Smith), 765
- Sodium and potassium intake in essential hypertension, assessing (Gillum, Prineas, and Elmer), 549
- Sonomicrometry and M-mode echocardiography, comparison between in detection of ischemic wall dysfunction (Guth et al.), 449
- Sotalol-induced torsade de pointes (Kuck et al.), 179 (Brief comm.)
  - intravenous, a beta-blocking drug with class III antiarrhythmic properties, clinical electrophysiology of (Touboul et al.), 888
  - replacement of amiodarone by for repetitive ventricular premature beats (Burckhardt, White, and Hoffmann), 167 (Brief comm.)
- Spasm, coronary, and intracoronary thrombus, acute coronary occlusion during balloon angioplasty due to: a reversible complication (Ischinger, Zack, and Aker), 1271 (Brief comm.)
  - ergonovine-induced, refractory to intracoronary nitroglycerin but responsive to nitroprusside (Hastey, Erwin, and Ramanathan), 778 (Brief comm.)
  - provoked by angiography (Dodek and Hooper), 781 (Brief comm.)
- ST segment depression, anterolateral, in acute inferior myocardial infarction: angiographic and clinical implications (Roubin et al.), 1177
- Standstill, sinus, following accidental lidocaine overdose (Antonelli, Ben-Ami, and Weiss), 1042 (Brief comm.)
- Stenosis, aortic, in adult patients, noninvasive evaluation of severity of (Nakamura et al.), 959
  - mitral, rheumatoid, requiring valve replacement (Bortolotti et al.), 1049 (Brief comm.)
  - peripheral left pulmonary artery branch, scimitar syndrome with (Platia and Brinker), 594 (Brief comm.)
  - subaortic, discrete membranous: ECG and vectorcardiographic findings (Bliden et al.), 1293 (Brief comm.)
- Stimulation, atrial, programmed, in children, induction of non-sustained atrial flutter by: incidence, mechanisms, and clinical implications (Casta et al.), 444
- ventricular, programmed, in patients without spontaneous ventricular tachycardia (Morady et al.), 875
- Straddling and overriding atrioventricular valves associated with complex congenital heart disease, two-dimensional echocardiographic evaluation of (Barron et al.), 1006
- Strangulation, fatal cardiac, by congenital partial pericardial defect (Jones and McManus), 183 (Brief comm.)
- Streptokinase infusion, intracoronary, for myocardial infarction, role of coronary artery bypass surgery after (Walker et al.), 826
  - intracoronary, administered into sinus node or AV node of dogs, no electrical instability after (Epstein, Urthaler, and James), 902
  - in evolving acute myocardial infarction (Feldman et al.), 823
- Stroke volume in cardiac patients, comparison of noninvasive pulsed Doppler and Fick measurements of (Loeppky et al.), 339
- Stunned myocardium, reperfusion-salvaged, response of to inotropic stimulation (Ellis et al.), 13
- Subaortic stenosis, discrete membranous: ECG and vectorcardiographic findings (Bliden et al.), 1293 (Brief comm.)
- Subcostal M-mode echocardiography of right atrial wall for differentiation of supraventricular tachyarrhythmias with aberration from ventricular tachycardia (Drinković), 325
- Substrate, plasma renin, renin activity, and aldosterone levels in a sample of oral contraceptive users from a community survey (Goldhaber et al.), 119
- Sudden cardiac death without associated myocardial infarction, prognosis after: One year follow-up of empiric therapy with amiodarone (Peter et al.), 209
- death in an asymptomatic young man with notched T waves and QT prolongation (Karjalainen and Heikkilä), 1040 (Brief comm.)
  - in primary mitral valve prolapse (Pocock et al.), 378 (Brief comm.)
  - prevention of myocardial reinfarction and of in survivors of acute myocardial infarction: role of prophylactic beta-adrenoceptor blockade (Singh and Venkatesh), 189
- unexpected death, epidemiology of: risk factors for men and women in the Framingham Heart Study (Schatzkin et al.), 1300
- Supra-Hisian AV block, intermittent, verapamil effects in AV node reentry tachycardia with (Hamer et al.), 431
- Supraventricular tachyarrhythmias with aberration from ventricular tachycardia, subcostal M-mode echocardiography of right atrial wall for differentiation of (Drinković), 326
- tachycardia, electrophysiologic effects and mechanisms of termination of by intravenous amiodarone (Gomes et al.), 214
  - observations in patients with having a PR interval shorter than the RP interval: differentiation between atrial tachycardia and reciprocating atrioventricular tachycardia using an accessory pathway with long conduction times (Brugada et al.), 556
- Surgical removal of right atrial thromboembolus detected by two-dimensional echocardiography in pulmonary embolism (Nestico et al.), 1278 (Brief comm.)
  - therapy, a new guide to: fragmented endocardial electrical activity in patients with ventricular tachycardia (Wiener, Mindich, and Pitchon), 86
- Symptomatic ischemic heart disease, effect of dobutamine on exercise performance in patients with (Rabinovitch et al.), 81
- Syncope, factors that predict during ventricular tachycardia in patients (Hamer et al.), 997
- Systolic clicks, multiple, and echographic coarse systolic fluttering with porcine valve malfunction (Szkopiec et al.), 794 (Brief comm.)
  - compression of septal coronary arteries with septal ischemia by thallium-201 scintigraphy (Ugarte et al.), 1039 (Brief comm.)
  - fluttering, coarse, echographic, and multiple systolic clicks with porcine valve malfunction (Szkopiec et al.), 794 (Brief comm.)
  - partial closure (notching), echographic early, of the aortic valve in congestive cardiomyopathy (Gardin, Tommaso, and Talano), 135
  - time intervals in patients with coronary artery disease, effect of prolonged intense endurance training on (Martin et al.), 75
  - wall thickening, decreased, in myocardium adjacent to ischemic zones in conscious swine during brief coronary artery occlusion (Guth et al.), 458

T

- T waves, notched, and QT prolongation, sudden death in an asymptomatic young man with (Karjalainen and Heikkilä), 1040 (Brief comm.)
- Tachyarrhythmias, supraventricular, with aberration from ventricular tachycardia, subcostal M-mode echocardiography of right atrial wall for differentiation of (Drinković), 326
- ventricular, amiodarone-induced (Santinelli, Chiariello, and Condorelli), 610 (Letter)
- Reply (Sclarovsky et al.), 611
- Tachycardia, atrial, and reciprocating atrioventricular tachycardia, differentiation between using an accessory pathway with long conduction times: observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- atrioventricular, reciprocating, and atrial tachycardia, differentiation between using an accessory pathway with long conduction times: observations in patients with supraventricular tachycardia having a PR interval shorter than the RP interval (Brugada et al.), 556
- reentrant, atrioventricular nodal, initiation of in patients with discontinuous anterograde atrioventricular nodal conduction curves with and without documented supraventricular tachycardia: observations on role of a discontinuous retrograde conduction curve (Brugada et al.), 685
- reentry, AV node, verapamil effects in with intermittent supra-Hisian AV block (Hamer et al.), 431
- refractory ventricular, complicating recovery from acute myocardial infarction: treatment with map-guided infarctectomy (Garan et al.), 571
- supraventricular, documented, initiation of atrioventricular nodal reentrant tachycardia in patients with discontinuous anterograde atrioventricular nodal conduction curves with and without: observations on role of a discontinuous retrograde conduction curve (Brugada et al.), 685
- electrophysiologic effects and mechanisms of termination of by intravenous amiodarone (Gomes et al.), 214
- observations in patients with having a PR interval shorter than the RP interval: differentiation between atrial tachycardia and reciprocating atrioventricular tachycardia using an accessory pathway with long conduction times (Brugada et al.), 556
- ventricular, and inducible repetitive ventricular responses, effects of intravenous amiodarone in patients with (Hariman et al.), 1109
- fragmented endocardial electrical activity in patients with: a new guide to surgical therapy (Wiener, Mindich, and Pitchon), 86
- in patients, factors that predict syncope during (Hamer et al.), 997
- lidocaine resistant, mexiletine in (Abinader), 808 (Letter)
- Reply (Santinelli, Chiariello, and Condorelli), 808
- nonsustained, high prevalence of in severe congestive heart failure (Maskin, Siskind, and LeJemtel), 896
- pacing termination of: influence of antiarrhythmic-slowed ectopic rate (Keren, Miura, and Somborg), 638
- patients with, electrophysiologic effects of ethmozin in (Mann et al.), 674
- spontaneous, programmed ventricular stimulation in patients without (Morady et al.), 875
- subcostal M-mode echocardiography of right atrial wall for differentiation of supraventricular tachyarrhythmias with aberration from (Drinković), 326
- Tamponade, cardiac, acute right ventricular dilation and echocardiographic volume overload following pericardio-centesis for relief of (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)
- pericardial, nonlinear dynamics, and electrical alternans (Goldberger et al.), 1297
- Telemetry of electrophysiologic variables from conscious dogs: system design, validation, and serial studies (Rubenson et al.), 90
- Temporary atrial pacing catheter, new, clinical evaluation of: results in 100 patients (Littleford et al.), 237
- Thallium-201 imaging, serial, after dipyridamole for coronary disease detection: quantitative analysis using myocardial clearance (Okada et al.), 475
- Thallium-201—continued
- myocardial perfusion imaging, increased myocardial ischemia during supine compared to erect exercise demonstrated by (Kelly et al.), 1263 (Brief comm.)
- perfusion exercise test compared to the cardiokymography exercise test in the diagnosis of coronary artery disease (Burke et al.), 718
- scintigraphy during dobutamine infusion: nonexercise-dependent screening test for coronary disease (Mason et al.), 481
- effects of resting ischemia on QRS scoring system as assessed by for estimating LV function quantified by radionuclide angiography in acute myocardial infarction patients (DePace, Hakki, and Iskandrian), 1210
- quantitative, and left and right ventricular performance following acute myocardial infarction, sequential radionuclide angiographic assessment of (Hirsowitz et al.), 934
- systolic compression of septal coronary arteries with septal ischemia by (Ugarte et al.), 1039 (Brief comm.)
- Therapy, medical, clinical trials and their effect on: The Multiple Risk Factor Intervention Trial (Moser), 616
- Thromboembolus, right atrial, surgical removal of, detected by two-dimensional echocardiography in pulmonary embolism (Nestico et al.), 1278 (Brief comm.)
- Thrombosis, coronary, experimental, beneficial effects of nafazotrom (BAY 6575) on (Shea et al.), 629
- Thromboxane B<sub>2</sub>, 6-keto-PGF<sub>1α</sub>, PGE<sub>2</sub>, PGF<sub>2α</sub>, and PGA, plasma levels in arteriosclerosis obliterans: relationship to clinical manifestations, risk factors, and arterial pathoanatomy (Jouve et al.), 45
- release in coronary artery disease: spontaneous versus pacing-induced angina (Mehta et al.), 286
- Thrombus, intracoronary, and coronary spasm, acute coronary occlusion during balloon angioplasty due to: a reversible complication (Ischinger, Zack, and Aker), 1271 (Brief comm.)
- Thymoma, pericardial, visualization of and evaluation of chemotherapy by two-dimensional echocardiography (Ileto et al.), 605 (Brief comm.)
- Thyroid function and amiodarone (Puletti et al.), 399 (Letter)
- Reply (Rotmensch, Belhassen, and Ferguson), 399
- Time intervals, systolic, in patients with coronary artery disease, effect of prolonged intense endurance training on (Martin et al.), 75
- Tocainide and mexiletine-lidocaine analogs: molecular basis for antigenicity of (Duff et al.), 585 (Brief comm.)
- Tomography, computerized, abdominal, abnormal, with amiodarone therapy and clinical significance (Shenasa et al.), 929
- Torsade de pointes complicating acute myocardial infarction (Griffin and Most), 169 (Brief comm.)
- due to quinidine: observations in 31 patients (Bauman et al.), 425
- mexiletine for treatment of (Shah and Schwartz), 589 (Brief comm.)
- sotalol-induced (Kuck et al.), 179 (Brief comm.)
- Training, endurance, prolonged intense, effect on systolic time intervals in patients with coronary artery disease (Martin et al.), 75
- Transcatheter in vivo vaporization of aortic valve: effects of laser irradiation on cardiac valves (Lee et al.), 394 (Brief comm.)
- Transesophageal two-dimensional echocardiography, intraoperative detection of changes in LV segmental wall motion by (Beaupre et al.), 1021 (Brief comm.)
- Transient changes in left ventricular mechanics during attacks of Prinzmetal's angina: an M-mode echocardiographic study (Distant et al.), 465
- Transluminal balloon-catheter dilatation, operative, of the coronary arteries, experience with (Mills and Doyle), 838
- coronary angioplasty, percutaneous, and coronary artery bypass surgery including surgery for failed angioplasty, comparison of (Jones, Murphy, and Craver), 830
- in acute myocardial infarction (Pepine et al.), 820
- significance of chest pain during (Aueron, Gruentzig, and Meier), 578 (Brief comm.)
- :6 years' experience (Gruentzig), 818
- Transmural and nontransmural myocardial infarction, acute, on ventricular function, comparison of the influence of (Nicod et al.), 28

- Transplant recipients, cardiac, comparison of patients with ischemic, myopathic, and rheumatic heart diseases as (Lanza et al.), 8
- Transplanted human heart, the electrophysiologic characteristics of the (Bexton et al.), 1
- Transposition of the great arteries, transumbilical balloon atrial septostomy for in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)
- Transseptal balloon catheterization of the left ventricle in adult valvular heart disease (Lam, Juska, and Pietras), 147
- Transtelephonic coronary intervention, prehospital, early, effect of on morbidity and mortality: experience with 284 postmyocardial infarction patients in a pilot program (Capone et al.), 1153
- Transumbilical balloon atrial septostomy for transposition of the great arteries in infants under the age of 60 hours (Roguin et al.), 174 (Brief comm.)
- Treadmill exercise testing, repeat: variability of results in patients with angina pectoris (Starling et al.), 298
- performance, generalized equations for predicting functional capacity from (Foster et al.), 1229
- Trial(s), clinical, and their effect on medical therapy: The Multiple Risk Factor Intervention Trial (Moser), 616
- Multiple Risk Factor Intervention, the: clinical trials and their effect on medical therapy (Moser), 616
- Tricuspid anulus, calcification of diagnosed by two-dimensional echocardiography (Mattleman et al.), 986
- honks, phonocardiography in (Chia et al.), 1032 (Brief comm.)
- regurgitation-like murmur due to mitral regurgitation with left phrenic nerve paralysis (Hirota et al.), 181 (Brief comm.)
- Triple-valve endocarditis with unusual echocardiographic findings (Rippe et al.), 598 (Brief comm.)
- Tuberculous pericardial effusion, echocardiographic abnormalities in (Chia et al.), 1032 (Brief comm.)
- Tumor(s), cardiac, metastatic, in pediatric patients, two-dimensional echocardiography for evaluation of (Grenadier et al.), 122
- mediastinal, causing continuous murmur (Cooke, Wolk, and Cheitlin), 1282 (Brief comm.)
- metastasis, coronary artery, fatal (Lasky), 785 (Brief comm.)
- Twins, identical, endocardial fibroelastosis with congenital complete heart block in (Rios, Duff, and Simpson), 1290 (Brief comm.)
- Two-dimensional and M-mode echocardiographic findings in pulmonic valve endocarditis (Berger et al.), 391 (Brief comm.)
- echo Doppler study of congenital disorders of the mitral valve (Grenadier et al.), 319
- echocardiographic assessment of radiation-induced valvular heart disease (Detrano, Yiannikas, and Salcedo), 584 (Brief comm.)
- evaluation of overriding and straddling atrioventricular valves associated with complex congenital heart disease (Barron et al.), 1006
- of right ventricular infarction (Jugdutt et al.), 505
- identification of epicardial pacemaker wire perforation (Chazal and Feigenbaum), 165 (Brief comm.)
- preoperative prediction of prosthetic aortic valve size (Cohen et al.), 108
- echocardiography, assessment of right ventricular function using (Kaul et al.), 526
- calcification of tricuspid anulus diagnosed by (Mattleman et al.), 986
- cold pressor test during: usefulness in detection of patients with coronary disease (Gondi and Nanda), 278
- for evaluation of metastatic cardiac tumors in pediatric patients (Grenadier et al.), 122
- in pulmonary embolism, surgical removal of right atrial thromboembolus detected by (Nestico et al.), 1278 (Brief comm.)
- in the detection of noneffusive cardiac involvement by intrathoracic neoplasms (Cohen, Raible, and Ansine-lli), 532
- in the diagnosis of carcinoid heart disease (Forman et al.), 492
- of ruptured pulmonic valve with infective endocarditis (Suwa et al.), 1027 (Brief comm.)
- Two-dimensional echocardiography—continued
- right ventricular function in coronary artery disease as assessed by (Panidis et al.), 1187
- systematic visualization of coronary arteries by in children and infants: evaluation in Kawasaki's disease and coronary arteriovenous fistulas (Satomi et al.), 497
- transesophageal, intraoperative detection of changes in LV segmental wall motion by (Beaupre et al.), 1021 (Brief comm.)
- visualization of pericardial thymoma and evaluation of chemotherapy by (Ileceto et al.), 605 (Brief comm.)

## U

- Unexpected death, sudden, epidemiology of: risk factors for men and women in the Framingham Heart Study (Schatkin et al.), 1300
- Unidirectional retrograde accessory pathways, antegrade conduction and AV node function in patients with (Henglein et al.), 411
- Unipolar demand pacemaker myopotential inhibition, Holter monitoring and provocative maneuvers in assessment of (Gaita et al.), 925
- Univentricular heart, management of infants with (Chen et al.), 1252
- University of Florida experience with intraoperative balloon-catheter dilatation (Faro et al.), 841
- Unruptured sinus of Valsalva aneurysm, echocardiographic diagnosis of (Lewis and Agathangelou), 1025 (Brief comm.)
- Unstable angina pectoris, alterations in left ventricular function during therapy of: relationship to clinical outcome (Narahara et al.), 261

## V

- Valsalva aneurysm, sinus of, unruptured, echocardiographic diagnosis of (Lewis and Agathangelou), 1025 (Brief comm.)
- left sinus of, common origin of right and left coronary arteries from region of: association with unexpected intrauterine fetal death (Muus and McManus), 1285 (Brief comm.)
- Valve(s), aortic, in congestive cardiomyopathy, echographic early systolic partial closure (notching) of the (Gardin, Tommaso, and Talano), 135
- atrioventricular, overriding and straddling, associated with complex congenital heart disease, two-dimensional echocardiographic evaluation of (Barron et al.), 1006
- cardiac, effects of laser irradiation on: transcatheter in vivo vaporization of aortic valve (Lee et al.), 394 (Brief comm.)
- endocarditis, pulmonic, M-mode and two-dimensional echocardiographic findings in (Berger et al.), 391 (Brief comm.)
- malfunction, porcine, multiple systolic clicks and echographic coarse systolic fluttering with (Szkopiec et al.), 794 (Brief comm.)
- mitral, congenital disorders of the, two-dimensional echo Doppler study of (Grenadier et al.), 319
- opening, pulmonic, premature, echographic: sign of reduced right ventricular distensibility (Benito et al.), 1029 (Brief comm.)
- prolapse, mitral, primary, sudden death in (Pocock et al.), 378 (Brief comm.)
- prosthetic, mechanical, anticoagulants during pregnancy for (Danel and Cooper), 607 (Letter)
- Reply (Tamari), 607
- pulmonic, ruptured, with infective endocarditis, two-dimensional echocardiography of (Suwa et al.), 1027 (Brief comm.)
- replacement, rheumatoid mitral stenosis requiring (Bortolotti et al.), 1049 (Brief comm.)
- size, prosthetic aortic, two-dimensional echocardiographic preoperative prediction of (Cohen et al.), 108

Valvular heart disease, adult, transseptal balloon catheterization of the left ventricle in (Lam, Juska, and Pietras), 147  
radiation-induced, two-dimensional echocardiographic assessment of (Detrano, Yiannikas, and Salcedo), 584 (Brief comm.)

Vaporization of aortic valve, transcatheter in vivo: effects of laser irradiation on cardiac valves (Lee et al.), 394 (Brief comm.)

Variant angina, ergonovine-induced episodes of, ventricular arrhythmias during (Szlachcic et al.), 20  
induced by alcohol ingestion (Takizawa et al.), 25

Vasoconstriction, coronary, due to prolonged hypoxia, involvement of calcium in (Karmazyn, Beamish, and Dhalla), 293

Vasodilator, diuretic, and positive inotropic drugs in left ventricular failure following acute myocardial infarction, hemodynamic trial of sequential treatment with (Nelson et al.), 1202

Vectorcardiographic and electrocardiographic findings in discrete membranous subaortic stenosis (Bliden et al.), 1293 (Brief comm.)

Vein syndrome, scimitar: report of nine new cases (Oakley et al.), 596 (Brief comm.)

Venous pressure-volume relationship, forearm, radionuclide analysis of: response to nitroglycerin (Dittrich and Slutsky), 733

Ventricle, right, the essential function of the (Furey, Zieske, and Levy), 404

Ventricular arrhythmias and ischemia-induced conduction delay, relationship between in closed-chest animals within 24 hours of myocardial infarction (Fujimoto et al.), 201  
and left ventricular function, effects of acetyl-strophanthidin on (Podrid et al.), 882  
during ergonovine-induced episodes of variant angina (Szlachcic et al.), 20  
long-term mexiletine for (Stein et al.), 1091  
malignant, in patients with chronic chagasic myocarditis, efficacy of amiodarone during long-term treatment of (Chiale et al.), 656  
mechanisms and actions of antiarrhythmic drugs (Wellens, Brugada and Farre), 1053  
potentially dangerous, efficacy of amiodarone during long-term treatment of in patients with chronic stable ischemic heart disease (Kaski et al.), 648  
refractory, oral mexiletine in treatment of: role of electrophysiologic techniques (Schoenfeld et al.), 1071  
reperfusion, role of beta-adrenoreceptor antagonism in the prevention of: effects of acebutolol, atenolol, and d-propranolol on isolated working rat hearts subject to myocardial ischemia and reperfusion (Rochette et al.), 1132  
with mexiletine, practical considerations in treatment of (Akhtar), 1086

demand versus atrioventricular pacemakers, evaluation of left ventricular performance by radionuclide ventriculography in patients with (Nitsch et al.), 906

ectopic beats in acute myocardial infarction, effects of intravenous nitroglycerin on (Bussmann, Neumann, and Kaltenbach), 940

endocardial pacing leads, characterization of chronically implanted (Angello, McNulty, and Dobbs), 1142

free wall, right, total disconnection of the: physiological consequences in the dog (Jones, Guiraudon, and Klein), 1169

function, comparison of the influence of acute transmural and nontransmural myocardial infarction on (Nicod et al.), 28  
left, and ventricular arrhythmias, effects of acetyl-strophanthidin on (Podrid et al.), 882  
during therapy of unstable angina pectoris, alterations in: relationship to clinical outcome (Narahara et al.), 261  
in patients with chronic hypophosphatemia (Vered et al.), 796 (Brief comm.)  
right, assessment of using two-dimensional echocardiography (Kaul et al.), 526  
in coronary artery disease as assessed by two-dimensional echocardiography (Panidis et al.), 1187

infarction, right: two-dimensional echocardiographic evaluation (Jugdutt et al.), 505

# Ventricular -continued

involvement, right, with acute inferior wall myocardial infarction identifies high risk of developing atrioventricular nodal conduction disturbances (Braat et al.), 1183

mechanics, left, transient changes in during attacks of Prinzmetal's angina: an M-mode echocardiographic study (Distant et al.), 465

performance, left and right, and quantitative thallium-201 scintigraphy following acute myocardial infarction, sequential radionuclide angiographic assessment of (Hirsowitz et al.), 934  
evaluation of by radionuclide ventriculography in patients with atrioventricular versus ventricular demand pacemakers (Nitsch et al.), 906

premature beats, repetitive, replacement of amiodarone by sotalol for (Burckhardt, White, and Hoffmann), 167 (Brief comm.)

pressure decline, left, during isovolumic relaxation in normal and diseased hearts, clinical characteristics of (Katayama et al.), 332

response(s), repetitive, inducible, and ventricular tachycardia, effects of intravenous amiodarone in patients with (Hariman et al.), 1109  
prevalence and clinical significance of the during sinus rhythm in coronary disease patients (Breithardt et al.), 229

septal rupture, myocardial infarction with normal coronary arteries complicated by (St. Louis et al.), 1259 (Brief comm.)  
right ventricular myocardial infarction with (Kereiakes et al.), 1257 (Brief comm.)

stimulation, programmed, in patients without spontaneous ventricular tachycardia (Morady et al.), 875

tachyarrhythmias, amiodarone-induced (Santinelli, Chiariello, and Condorelli), 610 (Letter)  
Reply (Sclarovsky et al.), 611

tachycardia and inducible repetitive ventricular responses, effects of intravenous amiodarone in patients with (Hariman et al.), 1109  
fragmented endocardial electrical activity in patients with: a new guide to surgical therapy (Wiener, Mindich, and Pitchon), 86  
in patients, factors that predict syncope during (Hamer et al.), 997  
lidocaine resistant, mexiletine in (Abinader), 808 (Letter)  
Reply (Santinelli, Chiariello, and Condorelli), 808

nonsustained, high prevalence of in severe congestive heart failure (Maskin, Siskind, and LeJemtel), 896

pacing termination of: influence of antiarrhythmic-slowed ectopic rate (Keren, Miura, and Somborg), 638

patients with, electrophysiologic effects of ethmozin in (Mann et al.), 674

refractory, complicating recovery from acute myocardial infarction: treatment with map-guided infarctectomy (Garan et al.), 571

spontaneous, programmed ventricular stimulation in patients without (Morady et al.), 875

subcostal M-mode echocardiography of right atrial wall for differentiation of supraventricular tachyarrhythmias with aberration from (Drinkovic), 326

volume(s) and cardiac output, attenuation correction of equilibrium radionuclide angiography for noninvasive quantitation of (Petru et al.), 1221  
left, and R wave amplitude induced by rapid atrial pacing, correlation between changes in (Daniels et al.), 711

Ventriculoatrial conduction, shortening of in patients with left-sided Kent bundles (Cinca et al.), 912

Ventriculography, radionuclide, in patients with atrioventricular versus ventricular demand pacemakers, evaluation of left ventricular performance by (Nitsch et al.), 906

Verapamil effects in AV node reentry tachycardia with intermittent supra-Hisian AV block (Hamer et al.), 431  
of in patients with acute myocardial infarction: hemodynamics and function of normal and ischemic left ventricular myocardium (Heikkila and Nieminen), 241

intravenous, in patients on chronic propranolol therapy, hemodynamic effects of (Reddy, Uretsky, and Steinfeld), 97

therapy, oral, accelerated junctional rhythms during (Schwartz et al.), 440

- Visualization, systematic, of coronary arteries by two-dimensional echocardiography in children and infants: evaluation in Kawasaki's disease and coronary arteriovenous fistulas (Satomi et al.), 497
- Volume change, left atrial, relationship of the interatrial septal echocardiogram to in the normal and diseased heart (Chung-Sheng, Hon-Yuan, and Yih), 519
- overload, echocardiographic, and acute right ventricular dilation following pericardiocentesis for relief of cardiac tamponade (Armstrong, Feigenbaum, and Dillon), 1266 (Brief comm.)

## W

- Wall dysfunction, ischemic, detection of: comparison between M-mode echocardiography and sonomicrometry (Guth et al.), 449
- Wall—continued
- motion abnormalities, left ventricular, in Kawasaki's disease (Grenadier et al.), 966
- segmental, LV, intraoperative detection of changes in by transesophageal two-dimensional echocardiography (Beaupre et al.), 1021 (Brief comm.)
- thickening, systolic, decreased, in myocardium adjacent to ischemic zone in conscious swine during brief coronary artery occlusion (Guth et al.), 458
- Wedge pressure, pulmonary capillary, in mitral regurgitation, noninvasive assessment of (Gamble, Salerni, and Shaver), 950
- Whole-body hypothermia, effect of on myocardial blood flow and infarct salvage during coronary artery occlusion in dogs (Voorhees, Abendschein, and Tacker), 945
- Wire perforation, epicardial pacemaker, two-dimensional echocardiographic identification of (Chazal and Feigenbaum), 165 (Brief comm.)
